9. Superintendent Report

Presentation of CAFR Report, Vicki Bateman, Director of Finances, City of Cape Coral: The Authority's financial statements were audited by CliftonLarsonAllen, LLP, a certified CPA firm that issued an unqualified "clean" opinion of the Authority's conformity with the Generally Accepted Accounting Principles of the United States (GAAP). Overall, there were no material weakness findings for Fiscal Year Ending June 30, 2017, and the school gained about \$1 million in net revenue, which increased reserves. In other words, assets and liabilities increased by about \$1 million because the revenue was higher than the expenses. There were two instances of noncompliance or reportable conditions that are required to be reported under Government Auditing Standards and the Rules of the Auditor General and they have been addressed. Discussion Held

<u>Presentation of Audit Findings, Vicki Bateman, Director of Finances, City of Cape Coral (for Andrew Laflin, CPA Principal, CliftonLarsonAllen, LLP:</u>

Internal Funds are funds that are to be used in the current school year for students or student clubs, only. They should be budgeted funds and procured; they do not carry over to the next school year.

The purpose of this audit was last January or February the City Auditor looked into the Authority's Internal Funds practices, and one of the findings was to have an annual audit. CliftonLarsonAllen, LLP was then hired to update findings and follow-up on final recommendations, which puts the Authority in the position to have annual audits, which is required. This is a fresh start moving forward, and the bottom line is that from here on out, the Authority needs to closely follow the Florida Department of Education's Red Book policies which govern financial and cost accounting programs in Florida schools. *Discussion Held*

Ms. Bateman noted current staff and teachers are being educated and trained to understand the difference between transactions in General Funds, and Internal Funds ledgers, and subledgers, and their exact contents and usage. *Discussion Held*

Member Nelson emphasized there needs to be more collaboration and training between the City and Authority personnel as the schools and operations are still maturing. Vicki Bateman agreed, and said that Interim Superintendent Collins has embraced the City and been very receptive to assistance. Member Ross asked if more personnel are needed for successful operations. Ms. Bateman agreed each school should have a bookkeeper, etc. *Discussion Held*

Interim Superintendent Report:

Interim Superintendent Collins thanked Vicki Bateman and her finance department team for their assistance and support. She also clarified the dates of the last auditing and emphasized if the System were to undergo a new testing right now, the findings would show great gains and that many areas of operations are now in compliance. *Discussion Held*

Summary of Best Practices (No cost or under \$5,000): Thus far, most of the 57 items recommended for improvement have been addressed. Some of the really big ones like adding personnel in Human Resources, or a bookkeeper will be looked at in the upcoming budget meetings. However, by and far, this is a huge process for us to take on, but we are making great gains. *Discussion Held*

CME Expansion: This is a cost-analysis proposal from Grady Minor & Associates, P.A., that is a preliminary study including a site plan. It will provide the Authority with some answers and directions as to what we want to do, how we will do it, and a timeframe. This is the first step; the process will take around 85 days and cost \$34,970. The contacts on this project will be Interim Superintendent Collins, and Vincent Cautero, Community Development Director,

City of Cape Coral. Dolores Menendez, City Attorney, City of Cape Coral, reminded Interim Superintendent Collins and the Board that under Chapter 26, the City will be supervising the construction, alterations, repairs, etc., on all school properties with recommendations from the Board. Since ultimately, these projects will become City buildings, the City will be very active during the entire process and the Authority needs to work very closely with them. Discussion Held

Summary of Investigations: Copies of the Summary of Investigations regarding the Rally and Nelson Stephenson have been distributed to members of the Board. Included in this report is the full citation of Chapter 26.

10. Chairman Report

Chairman Zivkovic said regarding Chapter 26, we need to remember that there is the opportunity to review/rewrite this in 2019/2020, and we should consider doing so.

Dolores Menendez, City Attorney, mentioned that she believes Councilman Stout has already proposed revisions to Chapter 26, and something maybe forthcoming in January, especially where it concerns Board terms, etc. Vice Chair Campbell said that he recalls Stout telling the Council that she plans to reach out to the Board for input. Chairman Zivkovic suggested developing a subcommittee to communicate the potential impacts of any revisions to Chapter 26 that could affect the Board. *Discussion Held*.

Member Traiger asked the City Attorney, "What opportunities does the Board have to make modifications to Chapter 26 directly? What is the proper channel?" City Attorney Menendez allowed that in the past, for example, Chairperson Jessica Cosden was able to make minor changes, and in her Board capacity, this was allowed. However, all ordinances require adoption. Therefore, the Board cannot unilaterally say "we want to redraft..." and just do something or bring forward formally an ordinance by themselves. However, it is not that the Board's input could not be the impetus for an ordinance. If the Board sees a need for a change, or revision to Chapter 26 then they can bring this to the attention of the City Council. Discussion Held

11. Foundation Report

Chris Porter, Vice President, City of Cape Coral Charter School Foundation Board: We've put a great new team together this year, and moving forward we hope to do a lot of great things. We recently filled the grants writing position with a school parent, and we are happy to say after submitting the very first grant this year, we are one of the two finalists, and now wait to find out if we have won a \$15,000 grant.

During the year one of the areas of support the Foundation is going to focus on besides looking for grants is other ways they can support upgrading the school security system. Currently, the Foundation is working closely with the school's IT specialist to clarify the issues and needs.

Although the Foundation wants teachers to be able to get funding in any amount they can, especially including the smaller mini-grants, we are still looking to have larger funding to offer as well. The Senior Scholarships application process is about to open. The Foundation is still figuring out how to best distribute funds because if this year is like the last, then we will have many students to award, which means smaller scholarships.

This year the Lighthouse Award nominations are a record 250 teachers nominated. We are now in the process of waiting for principals to qualify the nominees, and then we will move on to naming the finalists, then interviews, then observations. The Lighthouse Awards and Dinner will be on May 4, 2018 at the Yacht Club.

The Rally is the Foundation's biggest fundraiser and it is set for April 7, 2018 at the German American Club. We are still working on all the details, but this year instead of selling tickets at the schools we are planning on selling items that are either low cost, or no cost to auction off, for example, pole positions at parent pick-up and lunch with the principals, etc. We have also secured high-end items like travel prizes and vacation packages which can be bid on over the internet; this opens up bidding to family and friends near and far. *Discussion Held*

12. Staff Comment

MaryAnne Moniz, Business Manager:

The Fiscal Year 2018 Operating Budgets rely heavily on our FEFP or Student Enrollment and are currently running slightly over budget by about 3%. Some of the contributing factors are enrollment, there's been an FEFP reduction of \$44,000, and minimum wage increased from \$8.10 to \$8.25/hour. Explanation Continued

Overall budget items that may affect the upcoming budget amendments include: AC Repairs/Replacements to the schools and Title II training and development for our staff.

We will need to move \$1.2 million from Reserves to cover the A/C repairs and/or purchases. The budget was approved in September, and now we just need to get specs and develop an RFP. Danielle Jensen, Director of Food and Procurement, noted after the City completed their assessment, we are in the process of identifying what needs to be repaired or purchased out right. Further Explanation Continued

Interim Superintendent Collins said that the AC vendor, B&I, is doing their own assessment as to what needs to be repaired or purchased because of the discrepancy between what the City recommended what needed to be replaced, and when. Further Explanation Continued

Regarding Title II there is no net effect; this amounted to an increase of \$34,000 for the training and development of our staff. Further Explanation Continued

Capital or PICO Funding was initially budgeted at \$583,000, and it came in at \$632,000. Because we budget at 96% on revenues, we have an increase of almost \$50,000 which will help offset what happened with the FEFP reduction. Further Explanation Continued

Hurricane Irma damage and personnel estimates are around \$15,000-\$20,000 in repairs and payroll expenses. In addition, because we had 5.5 days increase in the school calendar to make up for lost days, that comes in at about \$27,000 for hurricane payroll adjustments.

Workman's Compensation estimates will come out later but they will probably increase by about \$16,000. Member Nelson asked if Workman's Compensation costs went up or down year to year. Also, what types of employee accidents are most frequent, and do we have safety trainings? Further Explanation Continued

FRS employer contributions will increase by about \$11,700. Further Explanation Continued.

Bus repairs will need their budgets increased because fifteen buses will be going out of warranty by next spring. Member Traiger asked about replacement costs because of bus warranty issues. Member Nelson said that she is going to contact associates at the District to see if she can get some answers as to how things can change and for assistance. Member Nelson asked about cost analysis of bus leasing vs repair costs. *Discussion Held*

Office 365 has a \$4,000 defragmentation cost associated with it that we need to be prepared to handle. Further Explanation Continued

New Budget Kick-Off:

The Budget Workshop dates to be approved are March 27, 2018 and April 17, 2018.

The annual Capital Asset Improvement Plan was released to the principals and their internal departments so that they can go over it and start working on their capital needs. We will meet with small groups starting next week to help them build a three year budget. Also, budget guideline books were distributed so principals can see how they are built, and start asking questions, if any. *Discussion Held*

Donnie Hopper, Principal, Oasis Middle School (OMS)

Aligning classroom student grades with predicted testing results is the goal. Currently, 90% of students are receiving As, Bs, or Cs; while 6% are Ds, and 4% are Fs. This means students are getting the content and passing classroom testing, so parents are starting to see connections, and understand the data in order to support their child and teachers.

Official changes at OMS: There will be no more PDA or Public Displays of Affection in our hallways, etc. The District has this same rule and so do we, except it wasn't really enforced; now it will be. Cell phone usage will also be curbed. Parents can expect that their child has a

cell phone in their backpacks at all times because there will be no cell phone usage during the school day, period.

Both girls and boys volleyball teams are on to the next round of championships. Elf The Musical, Jr, is our next drama presentation and rehearsals are underway. The Eco Club and their wonderful gardens now have strawberries taking root; we hope to use some of the produce in our kitchens if possible. STEM teams are designing boats and bridges all over the campus. PTO has a dance scheduled for us on Friday. Our Cheerleaders are headed toward States competition. TSA, our showcase for students and technology, has a field trip planned that's also a competition. National Junior Honor Society (NJHS) is back on track and ready for an induction ceremony in January. We now have a Book Battle Team that will represent us at the District's "Battle of the Books."

Mr. Hopper and Amanda Sanford, Principal, Oasis High School attended the District's Principals Meeting and represented the Charter Schools. This was by invitation and very productive. The one common theme of the meeting was retention. How do you keep qualified people and support staff? The District is dealing with the same problems that we are vis a vis attracting qualified and certified people to work with us and stay. We are competing with the best and this is a challenge for all of us. We need to think about branding in terms of promotion and attracting the best of the best for hiring.

The Oasis Middle School Open House is set for January 18th. A postcard is going out to all our schools and parents, plus West Zone kids. If we can successfully recruit and bring over just our own kids, we will have about 20 seats open to the public. *Explanation Continued*

Finally, we were given free National School Choice Week kits; the campaign kicks off January 21st. The kit includes a cool scarf that promotes school choice and some other informational items. We are going to hand these out to students from other schools and use it as a branding recruitment tool. *Explanation Continued*

Chairman Zivkovic would like a meeting with Mr. Hopper to define and discuss exactly what it will take to attract and recruit the "best of the best" teachers and staff.

Recess 10:38 a.m.

Meeting Back in Session at 10:44a.m.

13. Unfinished Business

13A. Evaluation of ScreeningOne Background Check Services: Tabled.

13B. Discussion of Real Estate Options: Interim Superintendent Collins had a meeting with the City Manager to discuss parking and joint development of the space behind the schools. The City Manager is interested in developing this land working with the schools to maximize it's multi-purpose use. The schools could use the space during the day; the general community can use it during off times. The first step is a parking analysis, and then a site analysis by Vincent Cautero, Community Development. Finally, we are all going to sit down with Vicki (Bateman), and Parks & Recreation, and do a Capital Costs and Operations & Maintenance Cost which will help us to understand what we are getting into, and how we can maintain everything. The City Manager also had ideas as to how to fundraise to help pay for this. Further Explanation Continued

The City Manager also recommended holding off on purchasing the 3505 property and instead, focus on the parking issues and development of space behind the school. Member Winstead questioned why we don't just buy the 3505 property outright whether we use it or not? Interim Collins said if the City purchased it, they would most want to develop it, and development would mean a lot of work to declare a rezoning, etc. *Discussion Held*

Chairman Zivkovic moved former Item 14J forward to discuss determining what are the deficiencies the System has, and how can we determine costs, safety, and revenue potentials. The Chairman would like a focus group or subcommittee to help answer these questions, and work closely with the City regarding best use for parking, our schools, and the community. *Discussion Held*

Member Boyer wondered if it is feasible to alleviate parking in the back right now or the land can't be used at all? And how can we move forward with focus groups or subcommittees, etc. to help discover best use? Interim Superintendent Collins said what is available right is used for student parking; any additional space would require light construction, i.e., moving dirt mounds, etc. City Attorney Menendez suggested rather than public focus groups, first go directly to parents, staff, PTO, etc., and develop some kind of survey as a lead. *Discussion Held*

Member Fisher said that although he likes the idea of first going to parents, staff, and PTO, he prefers that the public is also included in all discussions about parking and land usage. He also welcomed new Member Nelson, and wished all Happy Holidays.

Member Fisher departed 11:07 a.m.

Interim Superintendent Collins agreed to develop some kind of parent survey to identify the parking needs of parents, and use of available land. City Attorney Menendez said the City is

always ready to collaborate regarding where and what are the needs, and how can they be satisfied. Further Explanation Continued

Member Nelson commented these parking and land purchasing issues should have been on the Strategic Plan or be addenda to the Plan. Member Traiger said these issues are not on the Strategic Plan, and recommends they stay off the Plan because these issues are really about capital improvements, which are on another priority list. Interim Superintendent Collins clarified the Strategic Plan mostly functions and focuses on student improvement and achievement; it is the educational component of the System Plan. *Discussion Held*

14. New Business

14B Chairman Zivkovic welcomed new Member Jennifer I. Nelson, District 4, to the Governing Board.

14C Superintendent Contract: Member Boyer spoke about Superintendent Contract Negotiations and establishing a new meeting date with City Attorney Menendez to help clarify negotiations. Hopefully, there will be a draft to put before the Board at the next meeting.

14D Internal Funds Standard Operating Guide: Language needs to be changed and amended in Section 5D, page 19, paragraph 4. The Board will table this for approval at the next meeting, January 09, 2018.

Chairman Zivkovic asked for clarification on what is a "designated" and "undesignated" donation, and how are these terms are communicated to parents and donors. Member Winstead said that he wants our school system to adopt procedures and directives that meet the best practice recommendations, and at the same time, actually suit our unique system. Discussion Held

Motion made by Member Boyer, Second by Vice Chairman Campbell to table approval of the Internal Funds Standard Operating Guide until the next meeting, January 09, 2018. Unanimous; Motion Carried. Fisher excused.

14E Accrued Leave time for Part-time Employees: This is a professional courtesy to staff members who are certified in their field; the District also allows part-time teachers to accrue leave time. Currently, this only affects two teachers, and this number probably won't grow, but it's important to offer this professional courtesy or reclassification of part-time employees who can accrue leave time. This is not a policy change; it's a reclassification that will follow an attendance plan. City Attorney Menendez asked to make sure there is nothing out there in teacher contracts that already exists. *Discussion Held*

Motion made by Member Traiger, Second by Member Nelson to approve part-time employee accrued leave, and to do all things necessary to accomplish this, including but not limited to amending a policy. *Unanimous*; *Motion Passed. Fisher excused*.

14F Changes to Clinic Assistant Job Description: Interim Superintendent Collins would like to remove the CNA and/or medical experience requirements from the job description which is making it difficult to find people to fill the slot. The District also does not require these certifications or skills sets. Member Winstead would like to keep these requirements kept in as a "preferred" status for hiring applicants, and maybe even pay them more if they have these certifications and/or skill sets. Member McMillian said her personal experience is that the salary needs to increase to \$16-\$18 hour (with no benefits) to get a qualified CNA in place. Discussion Held

Motion made by Member Traiger, Second by Vice Chairman Campbell to approve changes to the Clinic Assistant job description omitting the CNA and/or medial experience requirement for hiring. *Unanimous*; *Motion Passed. Fisher excused*.

The Board noted any adjustments to the pay scale as a result of certifications or other experience will need to come back for Board approval.

Member Ross departed 11:52a.m.

14G Approval of System-wide Attendance Policy: The District's policy was compared to our policies, and the biggest difference was whether an absence is excused or not, should it be allowed to be made up, and receive credit?

Motion made by Vice Chairman Campbell, Second by Member Traiger to approve the excused absences and credits policy in our system-wide attendance policy. *Unanimous; Motion Passed. Fisher excused.*

The Board noted NEOLA Policy will have to be updated, modified, and/or adopted to reflect this. Interim Superintendent Collins will look into this.

14H Approval of Budget Workshop Dates: MaryAnne Moniz asked the Board to approve two Budget workshop dates, with a third added if necessary.

Motion made by Member Boyer, Second by Vice Chairman Campbell to approve Budget Workshop dates March 27, 2018 and April 10, 2018 which Governing Board members and associates will attend. *Unanimous; Motion Passed. Fisher excused.*

Member McMilian departed 11:57 a.m.

14I Adoption of the City of Cape Coral Charter School Authority School Calendar 2018-2019: We do have some flexibility with the District concerning calendar days, so we have added half-days, and moved other half-days because our students are in an academic setting longer during the day than Lee County. Looking at the calendar you will see we've added specific Professional Development and Professional Duty days, and scattered the remaining half-days throughout the calendar. *Explanation Continued*

Motion made by Vice Chair Campbell, Second by Member Traiger to approve and adopt the City of Cape Coral Charter School Authority School Calendar 2018-2019. *Unanimous; Motion Passed, Fisher excused.*

14K Discussion of the Proposed LED Lighting Project: Interim Superintendent Collins would like to table this discussion to another meeting where Capital Improvements are discussed. The Interim Superintendent said, "When we have our Capital Improvement Plan discussions we talk about everything that needs to be done throughout the year. Rather than do this cost saving and critical project discussion piecemeal, we need to sit down as a team, and set priorities with this issue and the parking issues, etc."

Member Winstead commented that of all our investments, this is the only one that actually has a return in savings. And as far as looking at ways to accumulate funds, the longer we wait, the more this project will cost. The financial gains would outweigh the hassle of paperwork, etc. *Discussion Held*

Motion made by Vice Chairman Campbell, Second by Member Boyer to table Discussion of the LED Lighting Project until we have the Capital Improvement Plan discussion. *Majority; Motion Carried. Fisher Excused*.

Board Vote Ayes: Campbell, Zivkovic, Boyer, Nelson, Traiger

Board Vote Nay: Winstead

15. Final Board Comment and Discussion

Member Winstead: Thanked former Chairperson Jessica Cosden for her service and dedication. Moving forward Winstead is hopeful that the Board will first keep students and teachers in mind, and that we will continue to work together as a team. Happy Holidays, Everyone.

Vice Chairman Campbell: Welcomed Ms. Nelson to the Board and the new City Council, and he wishes everyone a good holiday.

Chairman Zivkovic: Regarding the AC project, etc., he wants ownership of Unfinished Business to be handled and taken care of properly, and timely, and not dropped. He said, "In other words, Interim Superintendent Collins needs to stay on these projects until completion, and please keep the Board informed." Chairman Zivkovic welcomed new member Ms. Nelson, and gave thanks to the Admin staff, and Mr. Hopper, who is doing a fine job with the middle School Open House.

Member Boyer: Welcomed new member Jennifer Nelson. She also thanked Mrs. Collins for "Really stepping up and doing excellent work, along with her well-oiled teachers and staff." Member Boyer said with Mrs. Collins as Interim Superintendent "We are in good hands." Member Boyer is on the Board of "Do the Right Thing," a program that acknowledges great students for the wonderful things they do. In the past, many Charter School students were nominated, and Boyer would like to see more of our students again, so please remind the schools about "Do the right Thing," and that it's a really great program. Merry Christmas and Happy New Year to Everyone.

Member Nelson: Thanked everyone for their warm welcome. She would like to set up a tour of the schools to see what a "Day in the Life of Charter School Management" is really like. Interim Superintendent Collins agreed and will make arrangements. Happy Holidays, Merry Christmas, and Hanukkah to Everyone.

Member Traiger: Thanked Mrs. Collins and Vicki Bateman and her Financial Services team for their dedication and excellence. Member Traiger asked that all Board members review the Superintendent Evaluation form so that they will be better able to discuss it at the next Board meeting. Happy Holidays to Everyone and a Good New Year.

16. Time and Date of Next Regular Meeting

SCHOOL INTERNAL FUNDS STANDARD OPERATING GUIDE CAPE CORAL CHARTER SCHOOL AUTHORITY

1. INTRODUCTION

This manual contains procedures and forms for the financial accounting of all funds received or disbursed for school-sponsored activities, with the exception of school lunch funds, grants, book fair sales, and other general fund revenue sources. These funds are commonly known as school internal funds.

School internal funds are defined as all monies collected and disbursed by school personnel within a school, for the benefit of the school, or for a school-sponsored activity. Funds relating to all school-sponsored functions or activities are to be accounted for within internal funds. Financial transactions of school organizations shall be accounted for in the school Internal Funds. Funds shall be expended in the year collected to benefit the students who generated the funds. In limited cases, funds will be carried forward to the next school year. The Principal shall approve the carryover of funds to future school years after review of the organization's goal, timeframe and budget plan. Internal funds designated for general purposes shall be used to benefit the student body. A plan and budget shall be submitted prior to the approval of any expenditures. Each organization shall operate within a budget formulated by the organization's sponsor or membership.

School internal funds shall be accounted for on the same fiscal year basis as all other City of Cape Coral Charter School funds and are considered unbudgeted public funds under the control and supervision of the Charter School Governing Board. All funds handled by Charter School employees shall be included in and become part of internal funds, unless accounted for in the City of Cape Coral Charter School general accounting system. An adequate system of internal controls must be maintained in order to safeguard the integrity of the internal funds.

School internal funds shall be expended for the purpose for which they were collected and in accordance with procedures established by the State Board of Education, and standard public accounting procedures as provided by the Florida Administrative Code pursuant to the requirements of Sections 237.01 and 237.02 FS.

3. ACCOUNTING SYSTEM

3.A. JD EDWARDS ENTERPRISE ONE (JDE)

All school internal funds, all accounts payable and journal entry transactions are recorded in the same manner as general fund transactions in the JDE general ledger.

The Charter School Bookkeeper is responsible for recording entries as frequently as possible, but not less than weekly.

3.B. PERSONAL COMPUTER UTILIZATION

The forms required by and the reports generated for the school internal funds are developed and maintained by the Charter Schools Bookkeeper utilizing MS Excel software. These forms are password protected to insure the integrity of the formulas, calculations and reference tables. They are available for use by the school staff through access to a network shared drive available to all employees.

Other reports and correspondence related to school internal funds may also be created and/or used by the Charter School Bookkeeper and selected members of the staff or management.

3.B.(1) BACKUP OF DATA

All internal funds spreadsheets, forms, reports and correspondence are backed up to duplicate media daily by automatic synchronization to a secure computer server.

3.B.(2) VIRUS PROTECTION AND PERFORMANCE

Since the internal funds files are stored and synchronized on a network server they are protected by updated virus protection software and performance is maintained by the Cape Coral Charter School Authority's information technologies staff.

3.B.(3) DESCRIPTIONS & IMAGES

All entries into the JDE accounting system shall contain the best description possible. There may be some space limitations, therefore, clear abbreviations are recommended. All documents are to be electronically scanned and these images are to be attached to the associated transaction record in the JDE accounting system.

3.B.(4) VENDOR CODING & REGISTRATION

The JDE accounting system provides a wealth of information about transactions related to vendors. The system, in part, is dependent upon proper utilization of vendor codes. Proper use of vendor codes provides:

- Ease of data entry when updating and posting disbursements.
- Streamlining of the search process when investigating invoice status.
- A permanent record (e.g., total payments for the current and prior fiscal and calendar year, check number, data, and amount of last payment) exclusively for each vendor.
- Each new vendor must complete a vendor registration package which includes an IRS Form W9. The information included in the vendor registration package is validated by the City of Cape Coral Financial Services Department before the vendor is established in JDE.

3.C. FUND TYPES, NUMBERS, NAMES

Internal funds are classified by company code, business unit, object, and sub-ledger. This is a similar structure used for all other budgetary transactions for the City of Cape Coral Charter Schools with unique coding applicable to school internal funds.

3.C.(1) COMPANY

The company code is defined below based on school

05000 - Cash Account (asset)

04920 - Oasis Charter Elementary School

04921 – Christa McAuliffe Charter Elementary School

04922 - Oasis Charter Middle School

04923 - Charter High School

3.C.(2) BUSINESS UNIT

The business unit is defined below based on school

50000 - Cash Account (asset)

41435 - Oasis Charter Elementary School

4151S – Christa McAuliffe Charter Elementary School

4171S - Oasis Charter Middle School

4181S - Charter High School

3.C.(3) OBJECT CODES

The object code for school internal funds is a unique 6 digit numeric code that identifies the asset, liability, revenue or expense account applicable to the transaction. The list of codes is defined in the JDE chart of accounts and maintained by the Accountant. The Charter School Bookkeeper determines the appropriate coding when recording each transaction into the general ledger.

3.C.(4) SUB-LEDGER

The sub-ledger code for school internal funds is the 3-digit fund as defined in the JDE chart of accounts. This code is assigned to all revenue and expense entries posted on accounts payable or journal entry transactions.

3.C.(5) FUND NAMES

A maximum of ninety-nine (99) funds are available for use by each school. Fund names are defined by the Principal and should contain the best description possible. There may be some space limitations, therefore clear abbreviations are recommended. The Charter School Bookkeeper should maintain a numeric conformity of similar funds at different schools (i.e. yearbook funds, staff fund, charity funds, etc).

4. BANK AND CASH ACCOUNTS

4.A. BANK ACCOUNTS

4.A.(1) ESTABLISHING

Each school shall have only one checking account, which shall be entitled "(School Name Internal Fund. Cape Coral Charter School Authority)" or alternative that clearly identifies the school. The account title must be imprinted on all internal fund checks and deposit slips. All monies received by the school will be deposited intact as collected into this account, and all disbursements will be made by checks drawn on this account. Savings or investment accounts shall be titled in the same manner.

In addition to the bank account for each school, a master cash account is used to pay all vendor payments issued from JDE. Each business day, the net of all daily bank transactions are automatically transferred (sweep process) to/from the master cash account to insure funding is available to cover disbursements or transactions issued through JDE. The individual school accounts reflect zero balances at the end of each business day.

The Charter School Authority is responsible for notifying the Financial Services Department at the City of Cape Coral regarding any change in authorized signers.

The Charter School Governing Board has approved Bank of America as the provider for school internal funds checking accounts. Any change in financial institutions must be approved by resolution of the Charter School Governing Board.

4.A.(2) AUTHORIZED CHECK SIGNERS

All school internal funds check payments are issued from the master cash account. The two authorized signers on this account will always be maintained as the Charter School Superintendent and the Charter School Governing Board Chairperson.

4.A.(3) CHANGES IN BANK OR CHECK SIGNERS

A voluntary change in banking institution (not resulting from a bank merger or sale), requires a new resolution and Charter School Governing Board approval prior to the change. The Charter School Authority is responsible for notifying the Charter School Bookkeeper and the Financial Services Department at the City of Cape Coral if a decision is made to change banking institutions.

4.A.(4) QUALIFIED PUBLIC DEPOSITORY

Depositories in which internal funds are kept must be qualified public depositories, approved by the Charter School Governing Board, required to furnish the same type of security for deposits as required for other Charter School funds.

4.A.(5) RECONCILIATION

A reconciliation of the school internal funds bank accounts shall be performed monthly by the Financial Services Department at the City of Cape Coral.

4.B. PETTY CASH

At this time, petty cash funds are not authorized for school internal funds.

4.C. CASH ON HAND (CHANGE FUND)

Cash on hand, also known as change fund, may be established at the discretion of the Principal for purposes such as school store, concessions, athletic events, fee based programs, and fundraising projects. All cash on hand funds should be stored in a sealed deposit bag in the cash custodian's safe when not in use by the fund sponsor.

The dollar limits of the cash on hand or change fund shall be set at a reasonable level for each event. Adequate safeguards shall be placed over the cash at all times. When the change fund is no longer required, the money shall be deposited back into the checking account to afford maximum safeguarding

The change fund should be re-deposited at full value into the checking account at year-end.

A cash count and reconciliation of the change account shall be completed monthly.

4.D. INVESTMENTS

School internal funds are not anticipated to be long term in nature; however, if funds are to be retained for periods in excess of 3 months. funds may be transferred to an investment, high yield savings account or certificate of deposit (CD) that returns higher yield than the standard checking account. Investment accounts must be reconciled monthly

Investments are permissible only when they follow the Investment Policy adopted by the Charter School Governing Board.

4.D.(1) INVESTING

Investing money is the process whereby schools can earn additional interest on excess checking account funds. Checking account funds often earn no interest or a lower rate of interest than can be earned in high yield savings, certificates of deposit or other secure investment accounts.

At all times, the total of the school's internal funds cash accounts will equal the total of the individual fund balances.

4.D.(2) WITHDRAWAL FROM INVESTMENT

Invested money is not additional funds. The money invested has already been recorded on the books and is included within the fund balances of the individual accounts. Therefore, withdrawing money only represents a shift between the two cash accounts.

Money is withdrawn or electronically transferred from investments for purposes of depositing into the checking account to assure that adequate cash is available to support checks to be written.

A withdrawal or electronic transfer from an investment account represents only a shift between cash accounts. The investment withdrawal does not affect individual balances within the fund accounts belonging to clubs, organizations, or students.

4.E. ACCOUNTS RECEIVABLE ACCOUNT

An accounts receivable account shall be established in the JDE chart of accounts for school internal funds. This asset account is to record checks dishonored by the bank in anticipation of repayment by the maker. See section **5.H**. of this document for more detail on dishonored checks.

Before the year-end closeout a decision shall be made to determine the potential collectability of any amounts reflected in the accounts receivable account. If not deemed collectible, the amounts should be written off and charged as an expense.

5. RECEIPTS

5.A. INTERNAL FUNDS DEPOSIT VERIFICATION FORM

The Internal Funds Deposit Verification Form is the primary supporting document for all money collected for deposit by the fund sponsor. This form has been created in MS Excel and is used as a protected electronic worksheet form with automatic calculations. Handwritten entries are not acceptable. All funds received for deposit must be accompanied by a prenumbered receipt.

This Internal Funds Deposit Verification Form and the associated supporting documents must accompany all monies submitted to the Cash Custodian for deposit preparation. The Cash Custodian will verify the entries on the forms and prepare the bank deposit slip. The final deposit documentation which includes a copy of the bank deposit slip is then forwarded to the Charter School Bookkeeper to enter the transaction into the JDE general ledger.

Fields highlighted in yellow on the form are available for user input: All others are protected from user entry. The Internal Funds Deposit Verification Form includes the following fields:

- 1. School Name (automatically populated based on fund number)
- 2. Date (automatically populated based on the date of preparation)
- 3. Fund Number (entered by the user)
- 4. Fund Name (automatically populated based on fund number)
- 5. Preparer (name of the fund sponsor collecting money)
- 6. Verifier (cash custodian or other person verifying the deposit)
- 7. Purpose (the reason the funds were collected be specific)
- 8. Currency Quantity (entered by the user by denomination)
- 9. Coin Quantity (entered by the user by denomination)
- 10. Deposit bag number (if the preparer is the school secretary)

5.B. CHECK REPORTS INCLUDED IN THE INTERNAL FUNDS DEPOSIT VERIFICATION FORM

The Check Reports may accompany the Internal Funds Deposit Verification Form. Each Check Report page accommodates the detail of as many as 75 checks with as many as 300 checks total: User input fields are highlighted in yellow. The calculated totals from each page are carried forward to the Check Summary section of the Internal Funds Deposit Verification Form. The fields on the check reports are as follows and a sample is provided below:

- 1. School Name (automatically populated based on fund number)
- 2. Date (automatically populated based on the date of preparation)
- 3. Fund Number (automatically populated based on Internal Funds Deposit Verification Form entry by the user)
- 4. Fund Name (automatically populated based on fund number)

EXHIBIT 5.B.1. - SAMPLE OF CHECK REPORTS

5.C. REPORT OF CASH COLLECTED FORM

The Report of Cash Collected Form should accompany the Internal Funds Deposit Verification Form and supporting documents whenever cash is included in the deposit. User input fields are highlighted in yellow. This form should be used in all instances where it is important to retain the detail of cash payments made by students, parents or staff.

When the sum of the totals on the two Cash Collected Forms is equal to the amount reflected in the cash and coin sections of the Internal Funds Deposit Verification Form, the following status is reflected in the Deposit Totals section of the Internal Funds Deposit Verification Form:

CURRENCY BALANCES

If not, the status shows:

CURRENCY OUT OF BALANCE

If cash is collected for a general purpose where it is not practical to detail cash collected by payee, individual detail by payee may not be required. Instances would include activities such as but not limited to concessions, school store, and entrance fees for sporting events, activities and school dramatic productions. In these cases, documentation of pre-numbered tickets or other supporting information may be provided to substantiate the cash collected.

The form includes the following fields highlighted in yellow for user input.

- 1. School (name)
- 2. Preparer (name)
- 3. Fund Name
- 4. Fund Number
- 5. Date Received (the date the cash payment was received)
- 6. Parent Name (if appropriate)
- 7. Associated Student
- 8. Receipt # or Ticket #
- 9. Amount

The teacher, staff member, or person collecting the money is responsible for filling out the entire form except the receipt number and the signature at the bottom of the form.

Once collected, the cash may not be used to pay or reimburse for items needed or purchased. There are to be no expenses paid from the cash collected. All cash collected must be turned into the Cash Custodian, intact and accompany the associated Internal Funds Deposit Verification Form for proper receipting and depositing.

Cash collected shall not be used to cash checks for school employees, nor make any type of loans or change.

If cash has been collected from more than one source, a separate Report of Cash Collected Form shall be completed for each source. For example, if several teachers collect money for the same purpose, each teacher must fill out a separate Report of Cash Collected Form and multiple forms may accompany a single Internal Funds Deposit Verification Form.

In the event the Cash Custodian is not at the school, the Principal shall appoint a designee to accept all monies ready for deposit. That person shall have the responsibility of verifying that money is submitted in a sealed envelope with all forms attached. The sealed envelope would then be secured in a safe environment (school safe) until the deposit is prepared by the Cash Custodian and picked up by armored car service for deposit to the bank.

A sample copy of the Report of Cash Collected Form appears on the following page (see Exhibit 5.C.1)

5.D. DONATIONS TO INTERNAL FUNDS

Donations for a specific purpose received by the school for internal funds are recorded in the appropriate school internal fund and identified with accounting object 566101 (contributions, donations).

Administrative Regulation 1.18 Student Fees & Donations/Contributions states that all donations of \$250.00 or more received by the school must be acknowledged back to the donor by the school. Schools must acknowledge in a timely manner the donation/contribution in written form. This acknowledgement letter must be retained by the Cash Custodian and attached as supporting documentation for the deposit. The Cash Custodian shall maintain a file with a copy of all donation acknowledgements.

Monies for all donations are to be documented on an Internal Funds Deposit Verification Form prepared by the Cash Custodian and should be accompanied with all documentation from the donor.

All undesignated donations will be considered as follows: 100% will be transferred to the General Fund where 25% will be utilized for the Principal's Discretionary Fund account, and 75% will be utilized for the Technology Fund account.

Each school should have a process in place so that copies of all acknowledgement letters are forwarded to the school's Cash Custodian.

5.E. DEPOSIT DATES & BANK DEPOSITS

All monies collected must be deposited intact into the bank as frequently as feasible as dictated by sound business practices. Money collected should be deposited within five (5) business days after receipt by use of an approved armored courier service. In no case may any employee take deposits directly to the bank.

Deposits are generally picked up by the armored courier twice weekly and they will not be received by the bank until the following <u>business</u> day. The deposit date should reflect the date that the funds will actually be received and acknowledged by the bank. This is the date that should be reflected on the deposit slip by the Cash Custodian.

All checks received for deposit must be endorsed with a restrictive endorsement of "For Deposit Only" and specify the School's Internal Fund bank account number. The only exception to this requirement is if checks

are deposited using Remote Deposit Service Online (RDSO). See instructions in section **5.F.** of this document for instructions for RDSO.

All deposits must equal the total amount collected and recorded on the Internal Funds Deposit Verification Form. One deposit ticket is required for each deposit being made for a given school internal fund. The deposit date should be noted on each deposit ticket with initials of the preparer and the verifier and the deposit bag number strip attached.

When depositing checks, a copy of the Check Report is to be included behind the deposit slip in the deposit bag to document the checks to the bank.

The Charter School Bookkeeper reviews the online bank website each day and matches all deposit transactions with the deposit documentation from the Cash Custodians. Any deposit corrections or adjustments are investigated and appropriate action taken to properly record the corrections.

5.F. REMOTE DEPOSIT SERVICE ONLINE (RDSO)

Remote Deposit Service Online (RDSO) enables the Charter School Bookkeeper to scan multiple checks into an image file that the depository bank is able to process through an online transaction. There are several benefits of this service which include:

- Any number of checks can be processed with RDSO.
- The checks are credited to the bank the same day.
- Checks do NOT require a restrictive endorsement stamp.
- Reduced armored car service charges.
- Dishonored checks are identified faster and/or reduced.

To request RDSO, the Cash Custodian prepares the RDSO Check Deposit Form (see exhibit **5.F.1**) If there are more than 4 checks to be deposited in the batch, a Check Report from the Internal Funds Deposit Verification Form is included as backup: For fewer than 5 checks, the Charter School Bookkeeper will retain a copy of the checks with the journal entry documentation. The forms and the checks are forwarded to the Charter School Bookkeeper by the Cash Custodian.

It is important to clearly identify the purpose of the deposit and indicate if it is subject to sales tax on the RDSO Check Deposit Form.

Once processed online, the Charter School Bookkeeper will record a transaction number and the date. If more than 4 checks are processed, voided copies of the checks and a copy of the documentation is returned

to the Cash Custodian for a 30-day retention period after which they should be shredded. If less than 5 checks are processed, the Charter School Bookkeeper will retain the voided copy of the checks along with the journal entry documentation.

5.G. LOST, STOLEN, OR MISSING MONEY

The Superintendent, Principal, Accountant and the Charter School Bookkeeper shall be notified of any lost, missing, or stolen money as well as any fraudulent activity that is related to the school's internal funds. For the procedures on how to handle lost or stolen property, refer to the City of Cape Coral Administrative Guidelines regarding lost or stolen funds.

5.H. DISHONORED CHECKS

Dishonored checks are those that have been deposited into the internal funds checking account, but have been returned by the bank primarily due to non-sufficient funds, stopped payments or closed accounts. The Charter School Bookkeeper maintains an active file of dishonored checks that are currently in process of collection. In no event is a student to be held responsible for payment, collection, or notification of a dishonored check for fund-raising activities.

The Charter School Bookkeeper will notify the Cash Custodian via email when the check is returned by the bank. A collection letter is mailed within 2 business days of notification from the bank and is followed up after 15 days or as soon as is practical. A service charge is assessed to most dishonored checks to cover bank charges and collection efforts. Thirty days after written notification is sent to the maker of the check, collection efforts are considered exhausted. If the amount of the dishonored check is greater than \$25, it should be referred to the designated collection agent and written off by the Charter School Bookkeeper with notification to Principal.

Dishonored checks are recorded as an accounts receivable within the JDE general ledger. They are monitored each month by the Charter School Bookkeeper and the accounts receivable is relieved when collected.

A reasonable effort must be made to collect all dishonored checks. It is essential that the school maintain a file on all correspondence sent to the parties whose checks were returned. Reasonable collection efforts as outlined in the administrative regulations should be followed.

When recording the dishonored check to accounts receivable, the Charter School Bookkeeper records a debit to accounts receivable and a credit to the cash account: The sub-ledger (fund) number is required on the accounts receivable entry to insure that the funds are removed from the fund balance. (See **EXHIBIT 5.H.1**)

EXHIBIT 5.H.1. - SAMPLE NSF CHECK JOURNAL ENTRY

If or when the amount of a dishonored check is repaid by the maker, the accounts receivable and cash entries are reversed. An additional entry to miscellaneous revenue for the service charge is also required

When recording the write off of a dishonored check as uncollectible, the Charter School Bookkeeper records a debit to uncollectible accounts expense and a credit to the accounts receivable account.

If a dishonored check is deemed uncollectible, an adjustment is required to write off the check. The Charter School Bookkeeper will send a memo to the Principal with the list of checks to be written off. The Principal will sign the memo approving the write-off. The write-off of dishonored checks must have documentation of collection efforts and be approved by the Principal. In no instance should a dishonored check be directly written off without first being recorded in the accounts receivable account.

Dishonored checks should generally be resolved or written off prior to the end of the fiscal year.

If or when dishonored checks which have been referred to the designated collection agent are collected, the funds collected are re-deposited to the internal fund from which they were originally debited.

6. PURCHASING

6.A. GENERAL POLICY

For internal funds, the charter schools are required to follow most of the City of Cape Coral purchasing guidelines with the following exceptions.

- Any vendor or individual to be paid from a school internal fund must first be registered with the City of Cape Coral. A copy of the blank registration forms document is located on the network shared drive and should be sent to the vendor or individual contractor to be completed and returned. Once returned, the information on the forms is validated and entered to JDE, a vendor code is generated.
- 2. Purchases of less than \$300 require pre-approval by the Principal. The requesting fund sponsor will prepare an Expense Pre-Approval Form (see **EXHIBIT 6.A.1**) which must be approved by the Principal and includes verification of the current fund balance.

6.B. PURCHASE ORDERS

A school internal funds purchase order is required for all internal funds purchases greater than \$300 before the order is placed with the vendor with the exception of field trips as identified in item 6.A.2 proceeding.

The Request for Purchase Authorization Form is prepared by the school secretary or fund sponsor (see **Exhibit 6.B.1** on the following page.) This is the same form that is used for all general fund purchase order requests.

The school secretary or fund sponsor should complete the applicable fields (in yellow) and the form must be approved by the school Principal or Assistant Principal in the Principal's absence. The approved form along with all quotations, estimates and supporting documentation should be attached to the request form and forwarded to the Charter School Administration Office for processing in JDE.

Once the requisition is entered to JDE, the system will issue a budget hold on the purchase requisition. The Charter School Bookkeeper will verify that the fund balance is sufficient to cover the cost of the purchase being requested on the Request for Purchase Authorization Form and either release the budget hold or reject the requisition. Once released by the Bookkeeper, the Procurement Manager will approve the requisition and the purchase order is generated in JDE.

Once the purchase order is generated in JDE, a copy is sent to the vendor with a copy of the quote or estimate to initiate the order. The amount of the purchase order is reflected as an encumbrance of the available money for use by the internal fund until the invoice is processed for payment in JDE.

Once the product is received or the service is completed, the vendor will issue an invoice which reflects the purchase order number generated from JDE. The invoice along with any receipt acknowledgements (packing lists) from the vendor are verified and signed off by the fund sponsor or school secretary. The invoice, pack list and copy of the purchase order are forwarded to Charter School Accounts Payable Specialist I for payment processing of the invoice to the vendor.

In addition to field trips, there may occasionally be other purchases that can only be obtained from a sole source provider. If over \$300, these purchase requests require special handling. Please refer to section 6.D. for instructions.

6.C. INFORMAL QUOTES, FORMAL QUOTES, OR BIDS

6.C.(1) INFORMAL QUOTES (rare to non-existent)

Informal quotes are required by Charter School Governing Board Policy when purchases of any item or group of similar items of equipment, supplies or services total the threshold limitation set forth in the policy, (currently \$5,000.00 to \$17,499.99).

Informal quotes may be obtained by the school placing telephone calls or receiving faxes from at least three vendors. The informal quotes must be documented either on the face of the school internal funds purchase order or included as an attachment.

6.C.(2) FORMAL QUOTES (rare to non-existent)

Formal quotes require approval by Charter School Governing Board when purchases of any item or group of similar items of equipment, supplies or services total the threshold limitation set forth in the policy, (currently \$17,500.00 to \$24,999.99).

Formal quotes are written quotes obtained by and prepared by the City of Cape Coral Procurement Services Department. <u>The school</u> may not prepare formal quotes at the school level.

The school shall furnish the City of Cape Coral Procurement Services Department with any pertinent and available information. The City of Cape Coral Procurement Services Department will perform the formal quote procedures and forward written notification to the school.

The school must indicate the formal quote number on the face of the Request for Purchase Authorization Form and should attach any supporting documentation.

6.C.(3) BIDS (rare to non-existent)

Bids require approval by Charter School Governing Board when purchases of any item or group of similar items of equipment, supplies or services total the threshold limitation set forth in the policy, (currently \$25,000.00 or more).

Bids are a formal process and obtained by the City of Cape Coral Procurement Services Department. The school may not process or request bids from vendors. This process is completed in its entirety by the City of Cape Coral Procurement Services Department.

The school shall furnish the City of Cape Coral's Procurement Services Department with any pertinent and available information. The City of Cape Coral Procurement Services Department will perform the bid process and forward written notification to the school.

The school must indicate the bid number on the face of the Request for Purchase Authorization form and should attach any supporting documentation.

6.D. SOLE SOURCE

Sole source is a determination that a vendor is the only supplier of such an item. This is usually based upon the vendor's ownership of a copyright or patent.

The school shall submit a request for sole source determination along with supporting information to the City of Cape Coral Procurement Services Department. Any school internal funds purchase order, which indicates a sole source, must have documentation attached from the City of Cape Coral Procurement Services Department.

6.E. SPECIAL CONDITIONS FOR INTERNAL FUNDS

6.E.(1) SCHOOL STORE AND FUND-RAISING PURCHASES

When purchasing items with internal funds, the requirements for requesting informal quotes, formal quotes, or bids will not apply provided that the following two conditions are met:

- a) Items are acquired for resale to students in the school store or purchased for fund-raising activities.
- b) The purchase amount is less than the State Department of Education bid threshold, (currently \$25,000.00).

6.E.(2) TRUST ACCOUNTS

Internal funds held in trust for individuals such as purchases of field trips, yearbooks, class jewelry, cards and invitations, insignias, caps and gowns, etc., shall be exempt from the requirements for requesting informal quotes, formal quotes, or bids.

7. DISBURSEMENTS

Monies collected for internal funds shall be expended for the purpose for which they were collected and in accordance with procedures established by the State Board of Education and standard public accounting procedures as provided by the City of Cape Coral Finance Department.

7.A. PAYMENT VOUCHER

When an invoice is received from a vendor for a purchase that did not require a purchase order, the school secretary will prepare an Internal Funds Check Request / Payment Voucher Form (EXHIBIT 7.A.1). This form provides transaction accountability, payment authorization, and is a source document that supports accounting entries. The blank template is maintained on the network shared drive by the Charter School Bookkeeper and includes 2 variations (also see EXHIBIT 7.A.2) of the form as well as reference tables for use by the preparer.

The Check Request / Payment Voucher Form should be prepared by the school secretary, approved by the Principal and submitted to Charter School Accounts Payable Specialist I for entry into JDE for payment processing.

The following supporting documentation is required to accompany the Check Request / Payment Voucher Form to the Accounts Payable Specialist I.

- The original invoice or store receipt, whichever is applicable shall be provided as supporting documentation. <u>Statements alone</u> <u>shall never be used as a basis for payment</u>. However, if no invoice/receipt is available, a full explanation and a reason for lack of an invoice/receipt shall be attached to the Check Request / Payment Voucher Form.
- 2. In the case of refunds to parents, it is recommended that a copy of the original money collected or check be attached to the Check Request / Payment Voucher Form if possible. If a transfer from the General Fund must be made to complete the refund process, the requestor shall complete a Fund Transfer Request Form and attach it with the request for the refund.
- 3. For product purchases, a packing list often accompanies the shipment. If all items are received, the pack list should be stamped indicating that the "invoice OK to Pay" and signed and dated by the

- receiving person. If no pack list is available, receipt should be acknowledged directly on the invoice in the same way.
- 4. For invoices reflecting services or work performed, the invoice should be stamped indicating that the work is completed and the "invoice is OK to Pay". In addition, any other supporting documentation from the vendor should also be attached.

7.B. VOID / STOP PAYMENT ON CHECKS

Checks will occasionally need to be voided and payment stopped for a multitude of reasons. A check may have been lost by the payee or in the mail, erroneously issued, or damaged. Upon receiving and investigating a request from the school or directly from the payee which requires a check to be voided and payment stopped, the Charter School Accounts Payable Specialist I will notify the Accounts Payable Assistant and Accounting Assistant at the City of Cape Coral to initiate the stop payment and void the check: The original check date, amount, check number and payee will be required. The Accounts Payable Specialist I will also need to indicate if a replacement check is to be issued.

7.C. PETTY CASH

Petty cash funds for school internal funds are not authorized at this time.

7.D. RESTRICTED EXPENDITURES

The following expenditures from internal funds are deemed inappropriate and shall not be made except from trust funds collected for a specifically identified purpose:

- When budgetary funds are available, the purchase of equipment, supplies, forms, and postage for curricular or classroom use is not allowable. An exception will be made, due to the nature of the expenditure, to accommodate postage expenditures when reimbursement is claimed from budgetary funds.
- 2. Curricular related travel, professional, technical, or consultant services, or other items for which City of Cape Coral Charter School Authority budgetary funds are available.
- 3. Articles for the personal use of any student, employee, or other person; except those items which are identifiable as being in recognition of service or promotion of school activities, and those items identified under Florida State Board of Education Rule 6A-1.0143 and Administrative Regulation 3.17, Promotion and Public Relations Expenditures.
- Salaries or any form of employee compensation for duties or assignments that are the responsibility of the City of Cape Coral Charter School Authority are <u>NEVER</u> to be paid from school internal funds.

- 5. Repairs and maintenance of City of Cape Coral or City of Cape Coral Charter School Authority equipment for which budgetary funds are available.
- All expenditures for the purchase of buildings, remodeling, renovation, repairs, alteration to the facilities or attachment of permanent fixtures to the property are typically considered general fund purchases.
- 7. Generally, donations from internal funds are not allowable. However, when funds are collected with the express purpose of making a contribution, contributions will be allowed provided that the monies collected for the contributions are held in trust by the school until disbursed.
- 8. The purchase or acquisition and use of cellular telephones.
- 9. Promissory notes, installment contracts, or lease purchase agreements shall not be executed from internal funds in the name of the school or any school organization, except as authorized by the Charter School Governing School Board.
- 10.No school organization, club, or group of students shall make expenditures that exceed the cash resources available to the organization or group.
- 11. No merchandise or services shall be sold or promoted by a non-school agency, in or through any school, or on school grounds, without written approval of the Principal. Written approval will be made on the basis of services to students or staff.
- 12. The Charter School Superintendent may allow advertising in student publications according to the following guidelines:
 - No advertisements may be obscene as to minors under Florida law or promote products or services which minors may not legally purchase.
 - No advertisements may contain libelous material.
 - No advertisements may be accepted which would tend to create a substantial disruption in the school environment.
 - No advertisements shall include political, religious or organizational symbols.
 - Advertising is subject to Charter School Administrator approval.

Expenditures that may otherwise be considered restricted may be allowable for payment within the Staff Fund or Social Committee Fund.

If questions concerning expenditures arise, contact the Charter Schools Accounts Payable Specialist I for clarification.

7.E. PAYMENTS FROM INTERNAL FUNDS FOR SERVICES PERFORMED

7.E.(1) EMPLOYEE / EMPLOYER

No payments are to be made from school internal funds as compensation or commission to any employee of the school. Reimbursements to employees of expenses for a specific preauthorized purpose are allowable.

7.E.(2) NON-INCORPORATED INDEPENDENT CONTRACTOR

A non-incorporated independent contractor is an individual or non-incorporated business that is hired to perform a service. This individual or business must be routinely engaged in providing similar services to other customers. The individuals or businesses have a level of expertise beyond that of an employee and do not provide services that are controlled or supervised by the school.

7.E.(3) INCORPORATED INDEPENDENT CONTRACTOR

An incorporated Independent Contractor is a business that is legally incorporated and is hired to perform a service. This business is routinely engaged in providing similar services to other customers. These services are not supervised or controlled by the school and require duties or responsibilities that are not part of a normal employee/employer relationship.

Incorporated businesses may be paid directly from internal funds. All payments must be processed in the corporate name. Payments in the name of the individual are not permissible.

7.F. INTERNAL REVENUE SERVICE 1099

The City of Cape Coral has the responsibility for issuance of IRS 1099 tax statements for payments to non-corporate entities. This tax statement is required when the Charter Schools internal fund has compensated any

individual or non-corporate entity for services rendered which amount to \$600.00 or more in a calendar year.

These transactions are routinely paid as consultant contracts or supplemental contracts. This process places the responsibility for proper tax reporting on the City of Cape Coral Financial Services Department.

Failure to follow the above guidelines may result in the Charter School Authority being assessed penalties by the Internal Revenue Service. IRS regulations provide for substantial penalties for failure to comply with 1099 reporting requirements.

7.G. TRAVEL REIMBURSEMENT FROM INTERNAL ACCOUNTS

Travel expenses may be paid from internal funds, subject to restrictions outlined herein, and in accordance with City of Cape Coral administrative policies. Any travel must be properly authorized and all expenses must be adequately documented. <u>Travel expenses must relate to the school internal fund activity.</u> Administrative costs are not permissible.

Per-diem meal allowance not to exceed GSA guidelines, lodging, and other travel reimbursements must meet the legal limits established by State law and the City of Cape Coral administrative policy.

An Expense Pre-Approval Form must be completed and approved by the Principal prior to incurring any expense for travel (see EXHIBIT 6.A.1). The travel must be fully pre-funded by the school activity internal fund.

After travel is complete, a Travel Expense Report (TER) will be completed by the Charter Schools Accounts Payable Specialist I to accompany the Check Request / Payment Voucher with receipts for lodging, mileage and GSA per-diem allowance for meals and submitted to the Charter Schools Bookkeeper for reimbursement.

7.H. EMPLOYEE MEAL PAYMENTS

Meals when overnight lodging is required and incurred are not subject to rules for "Class C" payments. These payments may be made directly by internal funds to the employee along with the lodging payments. Following the guidelines set forth above for processing these payments. Administrative costs are not permissible.

7.I. CREDIT CARDS

Each charter school has a credit card for use with school internal funds. These credit cards can be used for incidental purchases or for travel related to field trips. This includes online purchases, local purchases to avoid employee reimbursements, and travel related expenses.

The Expense Pre-Approval Form must be completed and approved by the Principal prior to the release of the credit card.

Internal funds credit cards are always to be secured in the school safe when not checked out and are controlled by the Cash Custodian. When a credit card is checked out, it is logged into the control log (see EXHIBIT 7.I.1). The credit card log will be maintained by the Credit Card Custodian and a copy of the log will be submitted to Financial Services at the end of each school year for audit purposes.

A Sales Tax Exemption Form should be provided to accompany the card in order to avoid sales tax being assessed to the purchase.

When the monthly statement is received by the Charter School Accounts Payable Specialist I each receipt will be identified and the proper accounting and fund will be assigned. The Charter School Accounts Payable Specialist I will prepare the Check Request / Payment Voucher with all supporting documentation.

8. TRANSFERS & JOURNAL ENTRIES

Adjusting journal entries (or just referred to as journal entries) are utilized to record deposits, credits, interest income, dishonored check activity, and all cash affecting activities that are not recorded through the accounts payable processes (check request or purchase orders).

8.A. TRANSFERS

A transfer should be used to move monies to or from one internal fund to another or to or from the general fund. Moving monies from one fund to another increases the balance in one account for the amount of the transfer while decreasing the balance in the other account for the same amount.

The information pertaining to all transfers must be entered on a Fund Transfer Request Form (see EXHIBIT 8.A.1) with approval from the Principal of the sending organization. Once approved, the form is sent to the Charter School Bookkeeper and Accountant to process as appropriate.

All fund transfers require a journal entry transaction to be initiated by the Charter School Bookkeeper.

- Simple transfers between funds within the same school do not require any additional activity.
- Transactions between funds from different schools or to / from the general fund also require action at the depository bank which is initiated by the Charter School Bookkeeper using an online bank application. These transactions are typically completed by the bank within two (2) hours on the same business day as requested.
- Transfers between the Internal Fund and the General Fund are completed by the Accountant.

 Business Manager approves bank transfers after review of signed transfer documents.

8.B. JOURNAL ENTRIES

Journal entries are generally used when recording deposits or other transactions into the JDE general ledger that are not posted through the accounts payable processes (i.e. payment vouchers or purchase orders invoiced). They may also be used to correct prior transactions that may have been recorded incorrectly. Journal entries are also used to record transfers between funds as discussed in Section 8.A.

The Charter School Bookkeeper prepares all journal entries associated with school internal funds based on supporting documentation provided from each school or other sources. A journal entry worksheet is prepared based on the supporting documentation with attention to the proper coding of the accounting information. This insures the proper accounting classification and proper assignment to the correct internal fund. The information from the worksheet can be electronically uploaded by the Charter School Bookkeeper to JDE or manually entered.

Multiple entries may be included on a single journal entry worksheet. (i.e. multiple deposits crediting the bank the same day). An electronic image of every journal entry and the supporting documentation is scanned and attached to the JDE record for future reference.

One or more journal entries may be contained within a single JDE batch. The JDE batch report along with the original copy of all journal entries and supporting documentation contained within the batch is sent to the Accounting Manager at the City of Cape Coral for final review and posting to the general ledger.

Journal Entries (see **EXHIBIT 8.B.1**) should be utilized for:

- Recording deposits
- Recording dishonored checks or re-deposits of dishonored checks
- · Correcting cash receipts or disbursement amounts
- Correcting cash receipts or disbursement posting errors
- Transfers between funds, schools or to/from the general fund

All deposits to the internal funds checking accounts should be recorded on a JDE Journal Entry Worksheet prior to entry into the JDE general ledger. Deposits are discussed in Section 5.C previously.

EXHIBIT 8.B.1 on the following page reflects multiple deposits that credited on the same day.

10. FUND-RAISING ACTIVITIES

10.A. GENERAL

Fund-raising projects and activities by the school, or groups within the school, shall contribute to the educational experiences of pupils and shall not be in conflict with the overall instructional program. The objective of fund-raising activities shall not conflict with programs as administered by the City of Cape Coral Charter School Governing Board, the Cape Coral Municipal Charter School Foundation or any of the Parent Teacher Organizations (PTO).

Prior approval must be sought from the Superintendent or designee for a fundraiser that may put the City of Cape Coral Charter School Governing Board at risk. The sponsor shall provide written documentation on the proposed fundraiser to the Superintendent for consideration.

The determination of the fund-raising activities for a school shall be the responsibility of the Principal. The Principal shall control the fund-raising activities conducted in the name of the school and assure that the purposes are worthwhile. Each fund-raising activity shall have the approval of the organization sponsor and the Principal using the Approval for Fundraiser Form (see Exhibit 10.A.1). All staff shall conform to the following conditions and any administrative directives that may be issued by the Superintendent:

- 1. Collections for all school-sponsored fund-raising activities must be deposited in the internal funds bank account.
- 2. Each Principal shall regularly evaluate their fund-raising projects and activities as they relate to school programs, the promotion of educational experiences, the time involved for students and teachers, and the additional demands made on the school's community. The Principal (or designee) will maintain a list of viable fund-raising opportunities. Fund-raisers that are not viable will be removed from the list.
- 3. Programs for which admission is charged or for which donations are received shall not be held during school hours, except as approved by the Superintendent or designee. Elementary student participation in off-campus fund-raising activities, whether sponsored by the school or any school-related organizations, shall be conditional upon the school having on file the written parental consent for each activity.

- 4. Fund-raising activities and projects within a school shall be kept within a reasonable limit by the Principal. Full justification of the need and an explanation of the manner in which the funds will be expended shall be required before any project or activity is approved.
- 5. Each fund-raising activity shall be planned to finance a specified objective.

A Parent Teacher Organization (PTO) or other organization connected with the school may sponsor fund-raising activities provided that school work and classroom time are not affected. Such activities shall be conducted in accordance with the policies of the City of Cape Coral Charter School Governing Board and with the approval of the Principal.

10.B. PROHIBITED FUND-RAISERS

The following fund-raisers are prohibited:

- Raffles and other activities of chance shall not be conducted in connection with any school activities. Any form of gambling is prohibited on school property.

- The sale of all competitive food or beverages on school premises shall be prohibited as school internal funds as directed in federal and state NSLP rules. (5P-1.003 Responsibilities for the School Food Service Program; Florida Administrative Code, Department of Agriculture and Consumer Services; Division of Food, Nutrition and Wellness; School Food Service Program)

10.C. PRE-APPROVAL

11. REPORTS

The Financial Reports are designed to provide timely financial information necessary for administration and management of school internal funds and compliance with federal and state regulations, and City of Cape Coral Charter School Governing Board.

The following financial reports are required to be completed at various times during the year:

- Internal Funds Balance Report
- Statement of Net Position
- Statement of Change in Position

11.A. INTERNAL FUNDS BALANCE REPORT

The Internal Funds Balance Report provides the Principal, staff and the fund sponsor a current balance of the monies available in all school internal funds.

This report is available for all employees from the shared network drive and is updated weekly by the Charter School Bookkeeper.

This report is used by the Principal, Cash Custodian, and the Charter School Bookkeeper to verify that money is available in a given fund before authorizing a purchase on either a Request for Purchase Authorization Form or and Expense Pre-Approval Form.

The Internal Funds Balance Report provides the following information:

- Fund names
- Date of last update
- Fund balance for each internal fund
- Encumbrance amounts generated from open purchase orders
- Detail by accounting classification code (object)
- Totals for of all internal funds by school

A sample of one of the Internal Funds Balance Reports is provided on the following page (**EXHIBIT 11.A.1**).

It is the responsibility of the Principal or Sponsor to review the School Internal Fund Balance Report for accuracy. Questions regarding an Internal Fund shall be put in writing to the Bookkeeper. Within a

reasonable time of receiving the request, the Bookkeeper will respond with an answer to the question. Concerns that cannot be resolved may be brought to the Accountant for clarification. At the end of each fiscal year, the Principal and Sponsor shall sign off that the balances are accurate.

11.B. BANK RECONCILIATION

It is important to reconcile the school internal fund checking account on a monthly basis as soon as the statement is available from the bank. The bank reconciliation is prepared by the Accounting Assistant at the City of Cape Coral Financial Services Department with cooperation from the Charter School Bookkeeper.

All debit and credit entries on the bank statement including service charges and dishonored checks should be reconciled to the entries on the JDE general ledger for the prior month. Any discrepancies between the bank statement and the general ledger will be resolved with a correcting journal entry.

12. YEAR-END FINANCIAL STATEMENTS

At the close of each school fiscal year, the Accountant prepares the Financial Statements and Independent Auditors' Report. This comprehensive document reflects the financial condition of the Cape Coral Charter School Authority.

For school internal funds, the Accountant will record the total of the account balances for all school internal funds checking accounts at the end of the fiscal year on a Statement of Fiduciary Assets and Liabilities as an Agency Fund. (SEE EXHIBIT 12.1.)

13. BEGINNING OF YEAR

13.A. BEGINNING OF THE YEAR GUIDELINES FOR SCHOOL STAFF

Annually, the school administration shall train staff on basic internal funds procedures. All staff shall receive a copy of the guidelines as part of the training. During the school year, refresher training shall be provided on an as needed basis as determined by the administration.

Items to include in the guidelines are listed below:

- **13.A.(1)** All funds collected must be remitted to the Cash Custodian on a daily basis. No funds shall be held in desks, drawers or on their person.
- **13.A.(2)** Purchase orders must be prepared and approved for purchases of \$300.00 or more. A Request for Purchase Authorization Form to be completed by staff and approved by the Principal is the best way to assure purchase orders are completed.
- **13.A.(3)** Review requirements and forms necessary to conduct fund-raising activities. Ensure that staff are aware of all forms that are required.

14. MONTHLY PROCEDURES

The month-end process should be approached as follows:

- 1. All cash receipts and cash disbursements that relate to the current month must be recorded in the JDE general ledger through accounts payable or journal entry. This should be completed by the 10th work day of the subsequent month.
- Each internal funds bank account must be reconciled to the JDE general ledger each month. The Accountant at the City of Cape Coral Financial Services Department is responsible for the reconciliations.

15. YEAR-END PROCEDURES

The accounting records of all schools must be closed for the period ending June 30th of each fiscal year. The items listed below are meant to be an overview of the process used. Internal funds activity will be at a minimum

after the close of school. Prior to year-end, the Bookkeeper will send out a correspondence that states when the last day for purchases in the fiscal year will be. Purchases after that date will be included in the next fiscal year.

The year-end process should be approached as follows:

- 1. Void all old outstanding checks and reissue as necessary.
- 2. Any uncollectible dishonored checks should be reviewed and written off if uncollectible. At June 30, the accounts receivable account may or may not have a balance. The balance would represent dishonored checks that the Charter School Bookkeeper and Principal determine are still collectible.
- 3. Invest excess funds that are in the checking account. Post all investment transactions prior to closing the June records.
- Inventory all school merchandise held for resale such as school store supplies, uniforms, apparel, and vending supplies. Provide inventory report to Financial Services no later than June 15th each year.
- 5. An inventory of all capital equipment will be conducted annually. The documentation shall provide a list of inventory that is obsolete, damaged or otherwise removed from the inventory. New capital items will be added to the inventory at time of acquisition. Non-capital equipment purchases (i.e. tablets, etc.) shall be tracked on the IT inventory list. A copy of the list will be provided to Financial Services quarterly.
- 6. Prepare a schedule of any accounts receivable and/or accounts payable which exist at the year-end.
 - a. Accounts receivable are amounts owed to the internal funds at fiscal year-end. The accounts receivable list should include the payer's name, amount owed to the school, and account to which the funds are to be credited.
 - b. Accounts payable are amounts owed to outside vendors for goods/services that have been ordered and received prior to the fiscal year-end, but not yet paid. The accounts payable list should include the vendor's name, amount owed by the school, and account that is to be charged for the purchases.

- 7. Prepare the required year-end reports:
 - The Statement of Fiduciary Assets and Liabilities (Exhibit 12.1)
 - Store inventory, giveaways, other inventory, if applicable
 - Accounts receivable
 - Accounts payable
- 8. When boxing up records to be sent for long term retention, the Charter School Bookkeeper should do the following:
 - a. Make sure the records are only for the school internal funds. Do not include any regular budgeted information.
 - b. Label all boxes with the school name and year and indicate school internal funds.
 - c. Keep all boxes to a reasonable size. All boxes must have lids. Remember, these boxes must be able to be carried between the school and the retention location.
 - d. Include the following, if applicable:
 - Accounts receivable list
 - Accounts payable list
 - Approval for fund-raiser forms
 - Journal entries (adjustment & transfer)
 - Check requests or payment vouchers with supporting documents
 - Bank statements
 - Dishonored check collection efforts folder

19.B. FHSAA Financial Report

The Florida High School Activities Association (FHSAA) is responsible for determining the rules and regulations and reporting requirements for all high schools that are members of the association and participate in sanctioned athletic competitions.

A FHSAA Financial Report must be completed by the host school for all jamborees, invitational meets, playoffs, and tournaments. The FHSAA receives a percentage of gross receipts which will vary by sport and is determined by the FHSAA rules, guidelines, and bylaws.

The host school must complete the FHSAA Financial Report and submit it with the payment within 10 days of the event conclusion. A copy of the repot shall also be forwarded to each participating school.

Participating schools may share with the host school a portion of the profit of loss as determined by game contracts, written agreements, and the rules and bylaws of the FHSAA.

Further guidance may be obtained by reviewing the Florida High School Activities Association's Rules, Regulations, and Bylaws.

19.D. MEALS AND LODGING

Expenses for meals and lodging relating to out of town travel shall be recorded directly into the individual team or sport account. The amount allowed shall not exceed the amount approved by the Charter School's per diem rate. An Expense Pre-Approval form should be completed as

supporting documentation for payment and attached to the Internal Funds Check Requisition form.

19.E. TICKET SALES

Tickets are commonly utilized for after-school events such as dances, athletic events, performances, and other events where an admission is charged. The sale of pre-numbered tickets, when used in conjunction with the Ticket Control Sheet, and the Report of Ticket Sold or Admission forms, eliminates the requirement for recording transactions by student names and amount paid by each student.

- c. The person responsible for ticket production shall provide a memo certifying the amount of tickets produced for the event and the ticket numbers.
- d. The memo certifying tickets produced must be attached to a completed Ticket Control Sheet and retained by the Cash Custodian.
- e. Unused or unsold tickets are returned to the Cash Custodian and attached to the Ticket Control Sheet.
- f. Ticket sales are recorded on the Report of Tickets Sold form.

19.G. TICKET CONTROL SHEET

The purpose of a Ticket Control Sheet is to account for all tickets used by the event. This control sheet is to be used when issuing tickets to be sold for any event. The Ticket Control Sheet is designed to provide for ticket accountability and detection of missing tickets. The control sheet contains information pertaining to verification of existing quantities on hand, quantities used, and event description.

The Ticket Control Sheet is an ongoing inventory system whereby the ticket numbers are recorded as they are issued to be sold and reflects the current tickets remaining in inventory. A separate Ticket Control Sheet shall be used for each roll of tickets on hand and is used in conjunction with the Report of Tickets.

19.H. REPORT OF TICKETS SOLD OR ADMISSIONS

The report of Tickets Sold, must be completed when tickets are sold or admission is charged for an event and is used in conjunction with the Ticket Control Sheet. The report provides for the accountability of monies collected and is a source document supporting accounting entries. The Report of Tickets Sold form is to be filed numerically by receipt number with the Deposit Verification form. The process for using the Report of Tickets Sold is as follows:

The Sponsor shall enter the following data on the form;

- a. Nature of the event
- b. Location
- c. Opponent school
- d. Date
- e. Ticket Color
- f. Beginning Ticket Number
- g. Selling price of the ticket

The form is provided to the ticket seller. The ticket seller shall enter the following data upon completion of the ticket sales:

- a. The last ticket number sold
- b. Signature of the ticket seller
- c. The form is submitted to the Cash Custodian at the conclusion of the event.
- d. The Cash Custodian shall complete the remainder of the form, verify the accuracy of all data, enter the receipt number, indicate the date received, and sign the form in the appropriate place.

Multiple Reports of Tickets sold forms for a particular event may be assigned to the same receipt number.

20. MUSIC AND BANDS

Music accounts are to be utilized for band activities, music class functions, uniform maintenance, and instrument related costs.

20.A. COLLECTION OF MONIES

All monies collected for school-sponsored activities are required to be deposited into the internal funds of the school. The money is to be recorded and deposited according to established procedures.

Collections from students for rental or maintenance of uniforms or instruments shall be recorded in separate accounts. These collections will be recorded within internal funds of the school.

20.B. EXPENDITURES

All expenditures shall comply with established internal funds procedures.

20.C. FUND-RAISING ACTIVITIES

All school-sponsored fund-raising activities must comply with Charter School Authority procedures and policies.

20.D. MUSIC AND BAND BOOSTERS

All music and band boosters are considered a cooperative organization.

21. YEARBOOKS

Yearbooks are sold to students at the lowest possible cost to afford the maximum number of students the opportunity to purchase the book. The sale of yearbooks should not be construed to be a fund-raising activity.

21.A. TRUST ACCOUNT

Yearbook transactions are to be accounted for within a separate Yearbook Internal Fund for each school.

21.B. SALES TAX

Yearbooks, by statute, are not subject to collection or payment of Florida Sales Tax.

21.C. EXPENDITURES AND PURCHASES

The purchase of yearbooks is not subject to the Charter School Authority's bid or quote provisions since such transactions are accounted for in a trust relationship.

The Yearbook Internal Fund may be utilized for any necessary expense relating to the production or printing of the yearbook. Expenses would

include the actual cost of the printing of the publication, film and developing, seminars and conferences, and refreshments for Yearbook Committee meetings.

21.D. INTERNAL FUNDS DEPOSIT VERIFICATION FORM

The Internal Funds Deposit Verification Form and its companion forms should be completed when collecting monies for the sale of yearbooks and ads. The name of the individual making the purchase and amount paid by that individual must be listed. A class roster or list may be utilized and attached if all information is indicated on the attached listing.

21.E. PROFIT, LOSS, AND TRANSFERS

Yearbook Internal Funds are intended to be self-supporting and not incur a loss or make an excessive profit. Any excess fund balance created by yearbook transactions shall remain in the yearbook internal fund and be available for future yearbook transactions. In those instances where large fund balances have accumulated, the future sales price of yearbooks may be set at a reduced price or equipment such as printers, cameras or computers may be purchased to aid in the production of the yearbook.. The school should retain a reasonable balance in this fund to facilitate the startup of the yearbook in the next school year.

22. SCHOOL STORE (not currently in use)

Merchandise that is needed to facilitate classroom instruction and to accommodate students may be sold in the School Store. The School Store shall be a separate account within the internal funds.

The same rules apply to the Athletics Apparel Internal Fund and any other fund which carries an inventory of items to be sold to the students or staff.

22.A. CHANGE FUND

A Change Fund/Cash on Hand is recommended to be set up for the School Store. Cash collections are not to be retained in the School Store, the Change Fund is used for this purpose. See 4.C. for instructions on the Change Fund.

22.B. MONIES RECEIVED

Monies collected from School Store sales should be turned over to the Cash Custodian on a daily basis. An Internal Funds Deposit Verification Form and companion forms must accompany the monies when remitted to the Cash Custodian. All monies must be forwarded intact to the Cash Custodian in a sealed bag.

It is not required that student names be listed on the forms as required in other collection procedures.

22.C. EXPENDITURES

The only expenditures from the School Store account should be for those items that are sold through the School Store.

22.D. SALES TAX

Items resold through the School Store are subject to Florida Sales Tax.

- a) Schools have a special provision in the Florida Sales and Use Tax law which allows payment of sales tax directly to the vendor. Sales tax in this situation is based upon the purchase price of the goods purchased for resale. The tax is considered part of the cost of the items purchased by the school and the tax is not collected separately.
- b) When ordering items for the school store for resale, consider crossing out the tax-exempt number on the Request for Purchase Authorization Form. This may assist the vendor in knowing that sales tax is due.
- c) If items are purchased for resale from an out-of-state vendor or a vendor who will not accept payment of Florida Sales Tax, then the sales tax must be paid directly to the Florida Department of Revenue. Sales tax in this case is based upon the sales price of the goods purchased for resale. A transfer in the amount of 6% of the purchase price will be generated and placed into the 217004 Sales Tax Liability account and remitted to the Florida Department of Revenue by the 20th of the following month.

Note: It may be in the school's best interest to choose an alternate vendor if the vendor does not collect Florida Sales Tax.

d) If the vendor does not separate the tax on the invoice, a corrected invoice will need to be obtained, or a written statement from the vendor noting that the price includes the sales tax. This will alleviate any potential questions that may arise with the Florida Department of Revenue.

22.E. GIVEAWAYS

All items in the School Store that are given away during the year must be recorded as they are given away. The School Store Custodian will provide a list of items given away which shall include date item given away, cost of item, copy of written request including name of person requesting distribution, and purpose for distribution. No items are to be given away without the Principal's authorization. A summary sheet of all giveaways is then prepared by the Bookkeeper at year end.

22.F. YEARBOOKS

Yearbooks should not be considered part of the School Store. If sold in the School Store location, the sales must be recorded as a separate transaction. Yearbook transactions should be recorded in a trust account. Yearbook sales are exempt from sales tax.

22.G. TRANSFERS

Profits from the School Store operation may be transferred to the general fund or other designated accounts that benefit all students at the discretion of the Principal. Sufficient funds shall be retained in the School Store account to provide adequate funding for future purchases of merchandise.

22.H. INVENTORY

An annual inventory of the School Store shall be completed at the end of each fiscal year.

23. STAFF FUNDS / SOCIAL COMMITTEE / VENDING

The school may establish funds for transactions that benefit teachers and staff within internal funds. These are the only funds within internal funds where expenditures may be made which benefit staff members.

- 1. These funds customarily receive money from teacher vending machine sales located in the teacher lounge, dues collected from staff members, and other specified donations.
- Consideration should be given to allocate a portion of vending machine commissions received from vending machines if they are used by students. A portion of the commission check may be allocated to the school's staff fund or social committee.
- 3. Expenses on behalf of staff should be paid from the staff fund or social committee fund only; there should be no co-mingling of staff

- and student funds. Expenses may include gifts, get well flowers, and staff parties. These funds may also be utilized for any expense that is not student related.
- 4. If the proceeds from vending machines have been recorded within these funds, then all expenses for the machines shall also be paid from the same fund.
- 5. A separate fund may be established for vending machines if the school desires to distinguish between vending transactions, dues, and other collections.
- 6. All items purchased for resale within the staff fund, social committee or vending funding, such as vending machine products, are subject to Florida Sales Tax.
 - a. Schools have a special provision in the Florida Sales and Use Tax Laws that allows them to pay sales tax directly to the vendors. Sales tax in this situation is based upon the purchase price of the goods purchased for resale. The tax is considered part of the cost of the items purchased by the school and the tax is not collected separately.
 - b. When ordering items that are not tax exempt, consider crossing out the tax-exempt number on the Request for Purchase Authorization Form. This may assist the vendor in knowing that sales tax is due.
 - c. If items are purchased for resale from an out-of-state vendor or a vendor who will not accept payment of Florida Sales Tax, then the sales tax must be paid directly to the Florida Department of Revenue. Sales tax in this case is based upon the sales price of the goods purchased for resale.

Note: It may be in the school's best interest to choose an alternate vendor if the vendor does not collect Florida Sales Tax.

d. If the vendor does not separate the tax on the invoice, a corrected invoice will need to be obtained, or a written statement from the vendor noting that the price includes the sales tax. This will alleviate any potential questions that may arise with the Florida Department of Revenue.

December 11, 2017
Honorable Chairperson and Members of the Board
Cape Coral Charter School Authority

CliftonLarsonAllen LLP ("CLA," "we," "us," and "our") has completed for the Cape Coral Charter School Authority's ("you," "your," or "the Authority") a detailed review of the current status of findings reported in the Cape Coral Charter Schools – Internal Funds Audit completed by the Cape Coral City Auditor's Office and issued on February 21 2017. Specifically, we performed the following procedures:

Part I -

• We developed a matrix identifying 18 findings and 3 reportable conditions described within the internal funds audit report. The grid was used to document procedures performed at each school to determine the current status of the findings and recommendations as well as the progress management has made implementing the recommendations made by the City Auditor's Office. We identified all relevant personnel involved in the initiation, processing, and recording of transactions, as well as reconciliation and reporting of school internal funds. We performed interviews and requested documentation from those involved in the process.

Part II -

- We corroborated information gathered in our interviews and testing by inspecting documentation maintained at the schools. We also tested a sample of 60 cash receipts and 60 cash disbursements for the attributes necessary to remediate the findings conveyed in the Internal Audit report.
- CLA also was available to provide additional financial and operational consultative services to the Authority, namely, for the purpose of providing guidance to prepare the Authority for an Internal Funds financial audit in fiscal year 2018.

Our report is not suitable for any purpose other than to assist you with the items mentioned above. Consequently, our report is limited to be for your information and use only and should not be used by anyone else. In addition, our report is based on current circumstances. We have no responsibility to update our report for events and circumstances that occur after December 11, 2017.

Respectfully submitted,

CliftonLarsonAllen LLP

Andrew Laflin, CPA Principal

I. SCOPE AND METHODOLOGY

Scope

The scope of our work encompassed all transactions processed between March and June 2017, and other procedural and policy update recommendations implemented through December 11, 2017, for each school and the Authority as a whole.

Methodology

Our first step was to conduct interviews with key individuals to document our understanding of the current status of the previously reported findings and recommendations. Our primary point of contact on this engagement was Britt Martin, Senior Management/Budget Analyst.

The next step consisted of testing a sample of receipts and disbursements for certain attributes based on the recommendations from the Internal Audit report. A sample size of 60 was used for both receipt and disbursement transaction cycles. The samples were split evenly among the 4 schools, consisting of 15 receipts and 15 disbursements tested at each school.

For each finding and reportable condition, we identified relevant planned procedures to address the applicable recommendation. Planned procedures included inquiries, inspection of documentation (including standardized forms, training materials, and the updated Standard Operating Guide), and observation through on-site visits of school campuses. Exhibit A depicts the previously reported findings and reportable conditions and related recommendations, CLA's planned procedures, and the results of those procedures.

II. ADDITIONAL OBSERVATIONS & RECOMMENDATIONS

Throughout our consultation procedures, we identified additional opportunities for strengthening the internal funds' operating environment as identified below:

- Receipting: The Financial and Program Cost Accounting and Reporting for Florida Schools, issued by the Florida Department of Education, (the "Redbook") requires within Chapter 8 that collections made outside of the school office must be turned in to the school office no later than the next business day (Section III, 1.4b.) and all funds collected must be deposited within five business days (Section II, 1.4c.). CLA recommends that all receipt documentation have a clear and auditable trail noting the date cash collections were initially received, the date cash collections were turned in to the school office, and the date that cash collections were deposited.
- <u>Ticket Inventory:</u> Redbook Chapter 8 Section III, 1.4f, requires that "...tickets shall be pre-numbered and perpetual inventories of each shall be maintained. Inventories shall show the beginning and ending numbers of all documents acquired and issued. For all cases in which tickets are used, ticket reports and unsold tickets must be available for audit. Any pre-numbered documents shall be accompanied by a certified statement of the numbers received." Exhibit C depicts an example of perpetual inventory of ticket sales.
- <u>Undesignated Donations:</u> The Authority periodically receives donations without any stipulations as to their use. Redbook Chapter 8 Section III, 3.5 identifies restricted expenditures, which include the following:
 - Equipment, supplies, forms, and postage for curricular or classroom use for which operating funds are available
 - Curricular-related travel, professional, technical, or consultant services, or other items for which operating funds are available
 - Salaries or other compensation for duties or assignments that are the responsibility of the school
 - Repairs and maintenance of equipment for which operating funds are available

Unless the Authority intends to use these undesignated donations for specific student activities or projects, such as athletics, music, or other clubs, then such amounts should be reported as contribution and donation revenue from local sources within the Authority's financial statements that can be used for specific operating purposes either determined by the Board (committed) or by the Superintendent and/or school principals (assigned). Furthermore, the Authority should include an appendix within its Standard Operating Guide that lists all recognized student clubs and activities for the upcoming school year. This listing should be evaluated to confirm that each listed club or activity serves in some manner the general welfare of the student body (thus, allowable for student internal fund accounting and reporting purposes).

- Qualified Public Depositories (QPDs): Based on the Standard Operating Guide update to maintain internal fund cash in a qualified public depository, for each audit year the following forms should be made available to the auditor:
 - Department of Financial Services form DFS-J1-1295: Public Deposit Identification and Acknowledgement Form. Note that this form only needs to be updated if specific bank and/or account information is updated. Additionally, this form should be completed each bank account.
 - Department of Financial Services form DFS-J1-1009: Public Depositor Annual Report to the Chief Financial Officer. Note this form is completed annually no later than November 30th, and lists the FEIN and Name of all QPDs in which the internal funds have cash deposited.

	Internal Audit Findings/Reportable Conditions	Internal Audit Recommendation	Planned Procedure	Result
1. Int	ernal Audit Findings and Re	commendations		
1	Pre-numbered receipts were not used properly by staff. Forms were either incomplete or not appropriately recorded, resulting in the potential for unaccounted cash received.	All cash/check receipts should be documented at the boundary of collection. Management should design, implement and enforce internal controls to ensure that all receipts are captured, reported and deposited. These controls should include maintaining sequenced receipt books with receipt book control logs to record all receipt books given to staff ensuring there is an auditable record. On a long term basis, school management should acquire an accounting software system to automate the collection process while maintaining a good trackable and auditable record.	Inquire of each school on the use of receipt books, and if implemented, inspect books and control logs.	Inspected new numbered receipt books to be handed out to teachers and sign in/out log sheets on 7/24/17 to be implemented at the beginning of the 16/17 school year. Additionally, on 12/1/17 we inspected the receipt book inventory log for the primary business office, in which the bookkeepers at each school sign out individual receipt logs for each of the schools. In addition, we reviewed the individual receipt book inventory log for OHS, CME, OES, and OMS, which list each pre-numbered receipt book assigned to a respective issuer (typically a teacher of a particular classroom) and included issuer signature, sign in date, return date, and reviewer (secretary) signature once the receipt book is returned. The issuer is responsible for maintaining a log of all receipts throughout the school year within said receipt book.

	Internal Audit Findings/Reportable Conditions	Internal Audit Recommendation	Planned Procedure	Result
2	In many instances of the tested deposit population, deposits exceeded the required five business day deposit timeframe. Days from receipts to bank deposit ranged from 6 to 128 days.	 Management should consider modification of the cash receipt reporting from an activity form to a daily form and require staff to turn in funds on a daily basis. Secretaries should be required to prepare deposits timely and/or have a backup in place to perform this task daily. 	1. Inquire of updated forms and inspect if updated. 2. Test a sample of transactions for timely deposit within 5 business days.	 Per the updated Standard Operating Guide to be approved at the December 12, 2017 Charter School Governing Board meeting, "All funds collected must be remitted to the Cash Custodian on a daily basis." Examples of required forms are also included as exhibits. CLA selected a sample of 15 deposits from each school, for a total of 60, for the period 3/1/17 through 6/30/17. CMES – 2 deposits were made beyond the 5 business day limit. OES – All deposits were made within the 5 business day limit. OHS - 6 deposits were made beyond the 5 business day limit. OMS – All deposits were made within the 5 business day limit.

	Internal Audit Findings/Reportable Conditions	Internal Audit Recommendation	Planned Procedure	Result
3	In all four schools, acknowledgment letters for donations of \$250 or more were not sent to donors.	1. Schools should send donation acknowledgment letter to donors and keep a copy of the letter for their record 2. A process should be identified to account, select, and assign responsibility for sending donor receipt letters for all donations over \$250.	1. Test a sample of receipts and inspect donor letters for any donations over \$250 in the sample for implementation. 2. Inquire of process updates.	CLA selected a sample of 15 deposits from each school, for a total of 60, for the period 3/1/17 through 6/30/17. CMES – Of the two donations tested, neither had documented donation letters. OES – 6 donations were tested and all properly included donation letters. OHS - 1 donation was tested and properly included a donation letter. OMS – No donations were selected in the sample. CLA requested an additional donation item for testing, and noted that an informal letter was included. The Internal Funds Money Handling training materials held on November 8, 2017 provided an example of a formal donor acknowledgement letter. CLA noted that this example is not included in the proposed Standard Operating Guide update. Per inquiry of Britt Martin, secretaries will prepare letters as donations are received, and the principals will sign them. When deposit journal entries are prepared by City Finance, they will review to ensure letters are included as applicable.
4	Collections (cash, checks, etc.) were unsecured in the classroom against theft and potential misappropriation.	Management should design a control and provide a policy to ensure cash and checks are secured in the classroom. This might include locking desk drawers or locking cash boxes in each classroom. Additionally, management should provide annual training to staff on safeguarding internal funds, raise awareness of policy, and turn in collections daily to the appropriate bookkeeper or secretary.	Inquiry and inspection of implemented safeguards, if any. Sample testing in item 3 above will determine whether cash is turned in daily.	Through inquiry of Britt Martin and inspection of a classroom, CLA noted that all teachers have locked desk drawers. The receipt documentation provided does not clearly define the date of collection within a classroom, as well as the date the funds are received by the appropriate bookkeeper or secretary. Note that Redbook Chapter 8, Section III, 1.4 specifies "Insofar as is practicable, all money should be collected in the school office. Collections made outside of the school office must be turned in to the school office no later than the next business day."

	Internal Audit Findings/Reportable Conditions	Internal Audit Recommendation	Planned Procedure	Result
5	Schools did not maintain an active file for Non-sufficient funds (NSF) checks and most were not referred to a collection agency.	The school board should mandate and provide adequate training on internal funds to staff and management.	Inquiry and inspection of implemented process.	Inspected log maintained by District Bookkeeper on 7/24/17 containing collection status. City Finance reconciles to the GL monthly.
6	Fund-raising activities were not approved by the Principal prior to the start of the events.	Management should follow policy and pre- approve all fundraisers on a specific form. These forms should then be retained as evidence of the pre-approval control and serve as a control log for anticipated receipts.	Inquire and inspect fundraising forms.	Form has been revised as of 4/18/17. Also noted in the Internal Funds Money Handling training materials held on November 8, 2017 that pre-approval by the Principal and filing of a financial report with the Principal (Red Book Chapter 8 requirements) were covered in the training.
7	Some purchases of small devices, such as iPads, kindles, headphones, and speakers were made using staff internal funds. This is not an allowed use of staff funds as stated by the Florida Department of Education, Chapter 8.	Recommend management train and remind staff on restricted expenditures. Also these restricted expenditures should be included in the operating budgeting process.	Inquire of training and Test a sample of expenditures, looking for restricted expenditures.	CLA selected a sample of 15 disbursements from each school, for a total of 60, for the period 3/1/17 through 6/30/17. • OMS – Noted one disbursement for video equipment that did not appear to have a specific trust purpose and should have been reported as an operating expenditure within the Authority's general fund. • OHS – Noted one disbursement for a Google Employee Boot Camp. Employee related training would be considered an operating expenditure within the Authority's general fund. • CMES – No operating expenditures were noted. • OES – No operating expenditures were noted. Noted in the Internal Funds Money Handling training materials held on November 8, 2017 that disbursements that should be reported as operating expenditures were covered in the training.

	Internal Audit Findings/Reportable Conditions	Internal Audit Recommendation	Planned Procedure	Result
8	The process of securing approval by the Principal on Expense Pre-Approval forms prior to purchases did not occur in some cases.	Recommend that management provide staff training annually and enforce the approval requirements for purchases.	Inquire of training and test a sample of disbursements, attempting to identify pre-approval where required.	CLA selected a sample of 15 disbursements from each school, for a total of 60, for the period 3/1/17 through 6/30/17. • CMES – Noted proper Principal Approval • OES - Noted proper Principal Approval • OHS – Noted one instance where Principal approval was not obtained. • OMS – Noted one instances where Principal approval was not obtained, and one instance where the signature of the Principal was dated after payment was already made. Noted in the Internal Funds Money Handling training materials held on November 8, 2017 that purchase approval requirements were covered.
9	Purchase orders (POs) were not used for purchases over \$300 as required by the Charter School Standard Operating Guide policy.	Recommend management train and enforce policy annually. If this policy is not practical to execute, management should consider modifying the policy accordingly.	Inquire of training and Test a sample of disbursements, attempting to identify purchase orders where required.	CLA selected a sample of 15 expenditures from each school, for a total of 60, for the period 3/1/17 through 6/30/17. CMES – Noted one disbursement over the threshold without a purchase order that was not otherwise exempted by policy. OES - Noted three disbursements over the threshold without purchase orders that were not otherwise exempted by policy. OHS – Noted one disbursement over the threshold without a purchase order that was not otherwise exempted by policy. OMS – Noted two disbursements over the threshold without purchase orders that were not otherwise exempted by policy.
	317 M			Noted in the Internal Funds Money Handling training materials held on November 8, 2017 that purchase order requirements were covered.

	Internal Audit Findings/Reportable Conditions	Internal Audit Recommendation	Planned Procedure	Result
10	There was one incident where an employee was directly compensated using internal funds. This is not an allowed use of these funds as stated by the Florida Department of Education, Chapter 8.	Recommend the Charter School Governing Board mandate and provide adequate training on internal funds to staff and management.	Inquire of training and test a sample of disbursements, attempting to identify instances of employee compensation paid through internal funds.	No disbursements relating to employee compensation were identified. Noted in the Internal Funds Money Handling training materials held on November 8, 2017 that disbursements that should be reported as operating expenditures were covered in the training.
11	Charter School Authority has never provided an annual audit of the internal funds as required by Florida Department of Education, Chapter 8 and by Charter School Standard Operating Guide policy.	Recommend the Charter School Governing Board expand the scope of their annual CAFR audit to include a supplemental audit report on the internal funds annually.	Inquire of fiscal year 2018 audit plan.	CLA received a signed audit engagement letter dated March 21, 2017, for an Internal Funds audit beginning in fiscal year 2018.
12	Charter School Authority Management and staff have not had sufficient training and lack adequate knowledge of the policies and procedures and proper use of internal funds.	Recommend Charter School Authority management hold a training session for each school annually on the policies and procedures governing internal funds and staff should acknowledge they received this training.	Inquire of training.	Inspected Training on Internal Funds outline held on November 8, 2017. Training included roles and responsibilities, Redbook requirements, disbursements that should be reported as operating expenditures, cash handling, and other relevant topics. A sign in sheet was included as acknowledgement of training received.

	Internal Audit Findings/Reportable Conditions	Internal Audit Recommendation	Planned Procedure	Result
13	Internal Funds Standard Operating Guide contained outdated information. Staff had implemented new procedures that had not been included in the Standard Operating Guide. Testing results showed that school staff and Charter School Authority management loosely followed the documented current policy and procedures.	Since the Charter School Governing Board originally approved the Standard Operating Guide, the Board should also approve all changes to these policies and procedures. Charter School Authority management should review current policy and procedures and make appropriate revisions. Also, Charter School Authority management needs to communicate these changes to staff and enforce them in all of the schools to ensure uniform practices on the internal funds.	Inquire of updates.	Per discussion with Britt Martin on November 20, 2017, the Standard Operating Guide has been updated with the exception of adding a section regarding the responsibilities of the Business Manager. Presentation to and approval of the Charter School Governing Board is expected at the December 12, 2017 meeting.
14	Schools did not periodically submit required financial reports to the Charter School Governing Board.	Charter School Authority management should provide quarterly financial reports of internal funds to the Charter School Governing Board.	Inquire with management and inspect quarterly financial reports.	Britt Martin provided the Cape Coral Charter School Authority Superintendent financial statements as of May 31, 2017, to the Charter School Governing Board, which included the Internal Funds balance sheet, and statements of Internal Fund account balances by school. The intent is to provide financial statements to the Charter School Governing Board on a quarterly basis beginning with the 12/31/17 quarter end.

	Internal Audit Findings/Reportable Conditions	Internal Audit Recommendation	Planned Procedure	Result
15	Internal funds were used to purchase some electronic devices. Subsequently these devices were not tracked or tagged with the asset tracking system.	Charter School Authority management should inventory their devices and have their staff sign an agreement to return devices upon their leave. Guidance and process of property control should be included in the policies and procedures.	Inquire with management and inspect the updated Standard Operating Guide.	Per the updated Standard Operating Guide to be approved at the December 12, 2017 Charter School Governing Board meeting, "An inventory of all capital equipment will be conducted annually. The documentation shall provide a list of inventory that is obsolete, damaged or otherwise removed from the inventory. New capital items will be added to the inventory at time of acquisition. Non-capital equipment purchases (i.e. tablets, etc.) shall be tracked on the IT inventory list. A copy of the list will be provided to the Charter School Accountant quarterly." Per inquiry of Britt Martin, the updated policy has not yet been enforced among the schools, but training is forthcoming. There was no evidence provided that electronic devices and other equipment were being tagged as inventory items on a consistent basis.
16	Credit Card Logs are not retained. This is a violation of Florida record retention laws.	Schools should maintain these records in compliance to State of Florida Record Retention law.	Evaluate existence of credit card logs at each school.	 CME – Noted Credit Card Control Log placed in use 11/7/16. OES - Noted Credit Card Control Log placed in use during 2016/2017 school year. OMS – Noted Credit Card Control Log placed in use 2/14/17. OHS – Noted Credit Card Control Log placed in use 8/9/17.
17	The accounting for internal funds is done in Excel by school and fund codes. This workbook is not reconciled to the general ledger account balances in JD Edwards and balances are not maintained current. The workbook is updated weekly not daily. Lastly, prior versions of the file are not retained.	Charter School Authority management should evaluate accounting software options for the purpose of maintaining accurate, detailed and auditable accounting records for internal fund accounts. They may wish to consider the software used by the Lee County School District or potentially develop a method for using JD Edwards for this purpose. Whatever software is identified it must be accessible to school staff to provide timely balance information for each internal fund account.	Inquire management of software use.	Per Britt Martin, the internal funds are accounted for using the City's JD Edwards accounting software. Additionally, CLA noted general ledger detail requested for receipts and disbursements testing was exported from JD Edwards.

18	Job descriptions for secretaries do not include their responsibilities of cash handling. Cash handlers should have cash handling training provided by the City of Cape Coral's Financial Services Department and receive a certificate.	Charter School Authority management should revise the secretary job description to include the responsibility of cash handling and require secretaries to attend cash handling training. Charter School Authority management should also consider incorporating this training into its policies and procedures.	Review the updated Standard Operating Guide and evaluate secretary participation in the cash handling training.	Per the updated Standard Operating Guide to be approved at the December 12, 2017 Charter School Governing Board meeting, generally the Principal's secretary will be assigned to act as the School's cash custodian. "The Cash Custodian is responsible for the daily collection of money, safe guarding of cash, depositing of money into the bank, and forwarding all supporting documentation to the Charter School Bookkeeper." Additionally, cash handling training was provided on July 26, 2017 and all 4 school secretaries were included on the sign in sheet. The November 14, 2017 revised Secretary job description also includes cash handling responsibilities.
2. In	ternal Audit Reportable Con	ditions and Recommendations		
1	Charter School Authority has not specified how undesignated donations should be allocated. Therefore, this determination has been left to school staff. The practice has been to deposit all undesignated collections into "Staff Funds".	The Charter School Governing Board and Charter School Authority management should review and revise policies and procedures on the allocation of non-designated donations. Charter School Authority management should allocate funds strategically and with an approved monies for the benefit of the schools.	Review the updated Standard Operating Guide.	Per the updated Standard Operating Guide to be approved at the December 12, 2017 Charter School Governing Board meeting, "All undesignated donations will be considered as follows: 25% to Principal's Discretionary Fund account and 75% to the Technology Fund account."

	Internal Audit Findings/Reportable Conditions	Internal Audit Recommendation	Planned Procedure	Result
2	Two hundred payments were tested and we found one paid check request that exceeded the temporary approver's designated dollar amount.	The payment processor and designated approver should be aware of the authorized dollar amounts. Recommend attaching the limit authorization form with the payments as documentation. Charter School Authority management should have a written policy documenting the process.	Test a sample of disbursements, noting specifically instances of temporary approver privileges. Also inspect updates to the Standard Operating Guide.	CLA selected a sample of 15 disbursements from each school, for a total of 60, for the period 3/1/17 through 6/30/17. There were no instances noted where a temporary approver was noted in place of the Superintendent. The updated Standard Operating Guide to be approved at the December 12, 2017 Charter School Governing Board meeting mentions certain instances where the Superintendent or "designee" approval is required; however, the process of assigning a designee and his or her authority in the absence of the Superintendent is not clearly described within the updated Standard Operating Guide.
3	The internal fund checking account cash balance exceeds the FDIC insurance limit of \$250,000.	Schools should either have different checking accounts to ensure money is insured by FDIC or diversify their deposits into a saving plan or an investment plan. Or the schools should modify their Standard Operating Guide to a policy they will comply with.	Review the updated Standard Operating Guide.	Per the updated Standard Operating Guide to be approved at the December 12, 2017 Charter School Governing Board meeting, "Depositories in which internal funds are kept must be qualified public depositories, approved by the Charter School Governing Board, required to furnish the same type of security for deposits as required for other Charter School funds."

1. In	ternal Audit Findings and Recommendations		
1	Pre-numbered receipts were not used properly by staff. Forms were either incomplete or not appropriately recorded, resulting in the potential for unaccounted cash received. All cash/check receipts should be documented at the boundary of collection. Management should design, implement, and enforce internal controls to ensure that all receipts are captured, reported, and deposited. These controls should include maintaining sequenced receipt books with receipt book control logs to record all receipt books given to staff ensuring there is an auditable record. On a long-term basis, school management should acquire an accounting software system to automate the collection process while maintaining a good trackable and auditable record.	Inspected new numbered receipt books to be handed out to teachers and sign in/out log sheets on 7/24/17 to be implemented at the beginning of the 16/17 school year. Additionally, on 12/1/17 we inspected the receipt book inventory log for the primary business office, in which the bookkeepers at each school sign out individual receipt logs for each of the schools. In addition, we reviewed the individual receipt book inventory log for OHS, CME, OES, and OMS, which list each pre-numbered receipt book assigned to a respective issuer (typically a teacher of a particular classroom) and included issuer signature, sign in date, return date, and reviewer (secretary) signature once the receipt book is returned. The issuer is responsible for maintaining a log of all receipts throughout the school year within said receipt book.	Teachers and staff are properly using numbered receipt books for all monies collected and logs of all receipts are being maintained. Receipt books are returned to administration office for record keeping.

	Internal Audit Recommendation	CLA Result of Follow-Up Procedures	Management's Response
2	In many instances of the tested deposit population, deposits exceeded the required five business day deposit timeframe. Days from receipts to bank deposit ranged from 6 to 128 days.	1. Per the updated Standard Operating Guide to be approved at the December 12, 2017 Charter School Governing Board meeting, "All funds collected must be remitted to the Cash Custodian on a daily basis." Examples of required forms are also included as exhibits.	Staff are required to turn in all fund collections to the secretary daily. This process is improving and principals are contacted when a deposit is made beyond the five day limit.
	 Management should consider modification of the cash receipt reporting from an activity form to a daily form and require staff to turn in funds on a daily basis. Secretaries should be required to prepare deposits timely and/or have a backup in place to perform this task daily. 	 2. CLA selected a sample of 15 deposits from each school, for a total of 60, for the period 3/1/17 through 6/30/17. CMES – 2 deposits were made beyond the 5 business day limit. OES – All deposits were made within the 5 business day limit. OHS - 6 deposits were made beyond the 5 business day limit. OMS – All deposits were made within the 5 business day limit. 	

	Internal Audit Recommendation	Internal Audit Recommendation CLA Result of Follow-Up Procedures				
3	In all four schools, acknowledgment letters for donations of \$250 or more were not sent to donors. 1. Schools should send donation acknowledgment letter to donors and keep a copy of the letter for their record 2. A process should be identified to account, select, and assign responsibility for sending donor receipt letters for all donations over \$250.	 CLA selected a sample of 15 deposits from each school, for a total of 60, for the period 3/1/17 through 6/30/17. CMES – Of the two donations tested, neither had documented donation letters. OES – 6 donations were tested and all properly included donation letters. OHS - 1 donation was tested and properly included a donation letter. OMS – No donations were selected in the sample. CLA requested an additional donation item for testing, and noted that an informal letter was included. The Internal Funds Money Handling training materials held on November 8, 2017 provided an example of a formal donor acknowledgement letter. CLA noted that this example is not included in the proposed Standard Operating Guide update. Per inquiry of Britt Martin, secretaries will prepare letters as donations are received, and the principals will sign them. When deposit journal entries are prepared by City Finance, they will review to ensure letters are included as applicable. 	Secretaries forward a copy of the donation letter along and donation check to the bookkeeper with the deposit. Secretaries keep a copy of the donation letter on file according to fund.			
4	Collections (cash, checks, etc.) were unsecured in the classroom against theft and potential misappropriation. Management should design a control and provide a policy to ensure cash and checks are secured in the classroom. This might include locking desk drawers or locking cash boxes in each classroom. Additionally, management should provide annual training to staff on safeguarding internal funds, raise awareness of policy, and turn in collections daily to the appropriate bookkeeper or secretary.	Through inquiry of Britt Martin and inspection of a classroom, CLA noted that all teachers have locked desk drawers. The receipt documentation provided does not clearly define the date of collection within a classroom, as well as the date the funds are received by the appropriate bookkeeper or secretary. Note that Redbook Chapter 8, Section III, 1.4 specifies "Insofar as is practicable, all money should be collected in the school office. Collections made outside of the school office must be turned in to the school office no later than the next business day."	Whenever possible, all funds are turned in to the secretary the day they are collected. Occasionally, monies are secured in a locked drawer until the following business day and then sent to the office.			

	Internal Audit Recommendation	CLA Result of Follow-Up Procedures	Management's Response
5	Schools did not maintain an active file for Nonsufficient funds (NSF) checks and most were not referred to a collection agency. The school board should mandate and provide adequate training on internal funds to staff and management.	Inspected log maintained by District Bookkeeper on 7/24/17 containing collection status. City Finance reconciles to the GL monthly.	An active file/log for NSF checks is current and the process of making referrals to collections is in progress. Our goal is to have all prior fiscal year NSF checks written off by February 2018.
6	Fundraising activities were not approved by the Principal prior to the start of the events. Management should follow policy and pre-approve all fundraisers on a specific form. These forms should then be retained as evidence of the pre-approval control and serve as a control log for anticipated receipts.	Form has been revised as of 4/18/17. Also noted in the Internal Funds Money Handling training materials held on November 8, 2017 that pre-approval by the Principal and filing of a financial report with the Principal (Red Book Chapter 8 requirements) were covered in the training.	Fundraising protocol training has been provided to Administrators and staff. Principals approve all fundraisers in advance. Our fundraiser form has been revised to include financial reporting information for principals. Principals will provide a final signature after the information has been completed. The bookkeeper will reconcile all fundraisers to JDE. Additional training will be provided on as-needed basis during the school year.

7	Some purchases of small devices, such as iPads, kindles, headphones, and speakers were made using staff internal funds. This is not an allowed use of staff funds as stated by the Florida Department of Education, Chapter 8. Recommend management train and remind staff on restricted expenditures. Also these restricted expenditures should be included in the operating budgeting process.	CLA selected a sample of 15 disbursements from each school, for a total of 60, for the period 3/1/17 through 6/30/17. • OMS – Noted one disbursement for video equipment that did not appear to have a specific trust purpose and should have been reported as an operating expenditure within the Authority's general fund. • OHS – Noted one disbursement for a Google Employee Boot Camp. Employee related training would be considered an operating expenditure within the Authority's general fund. • CMES – No operating expenditures were noted. • OES – No operating expenditures were noted. Noted in the Internal Funds Money Handling training materials held on November 8, 2017, that disbursements that should be reported as operating expenditures were covered in the training.	Updates to the Internal Funds Manual and money handling procedure documents were created and distributed to all staff. Trainings on proper use of internal funds were held for secretaries on 8/18/17, 8/23/17, and 10/4/17. Training for principals and secretaries occurred on 11/8/17. Training was provided to all school staff on 11/13/17, 11/15/17, 11/16/17, and 11/29/17.
8	The process of securing approval by the Principal on Expense Pre-Approval forms prior to purchases did not occur in some cases. Recommend that management provide staff training annually and enforce the approval requirements for purchases.	CLA selected a sample of 15 disbursements from each school, for a total of 60, for the period 3/1/17 through 6/30/17. • CMES – Noted proper Principal Approval • OES - Noted proper Principal Approval • OHS – Noted one instance where Principal approval was not obtained. • OMS – Noted one instances where Principal approval was not obtained, and one instance where the signature of the Principal was dated after payment was already made. Noted in the Internal Funds Money Handling training materials held on November 8, 2017, that purchase approval requirements were covered.	Staff received full training on proper money handling practices on November 8, 2017, in response to these issues.

	Internal Audit Recommendation	CLA Result of Follow-Up Procedures	Management's Response		
9	Purchase orders (POs) were not used for purchases over \$300 as required by the Charter School Standard Operating Guide policy. Recommend management train and enforce policy annually. If this policy is not practical to execute, management should consider modifying the policy accordingly.	CLA selected a sample of 15 expenditures from each school, for a total of 60, for the period 3/1/17 through 6/30/17. CMES – Noted one disbursement over the threshold without a purchase order that was not otherwise exempted by policy. OES - Noted three disbursements over the threshold without purchase orders that were not otherwise exempted by policy. OHS – Noted one disbursement over the threshold without a purchase order that was not otherwise exempted by policy. OMS – Noted two disbursements over the threshold without purchase orders that were not otherwise exempted by policy. Noted in the Internal Funds Money Handling training materials held on November 8, 2017, that purchase order requirements were covered.	Staff received full training on proper money handling practices on November 8, 2017, in response to noncompliance. Principals are alerted by admin office if amounts exceed \$300.00. Exception to this rule is purchases using Amazon account where limits can exceed \$300.00 with approval from administration and cost savings documentation is provided with three quotes.		
10	There was one incident where an employee was directly compensated using internal funds. This is not an allowed use of these funds as stated by the Florida Department of Education, Chapter 8. Recommend the Charter School Governing Board mandate and provide adequate training on internal funds to staff and management	No disbursements relating to employee compensation were identified. Noted in the Internal Funds Money Handling training materials held on November 8, 2017, that disbursements that should be reported as operating expenditures were covered in the training.	Proper use of Internal Funds was addressed in the November 8, 2017 training to staff and administrators.		
11	Charter School Authority has never provided an annual audit of the internal funds as required by Florida Department of Education, Chapter 8 and by Charter School Standard Operating Guide policy. Recommend the Charter School Governing Board expand the scope of their annual CAFR audit to include a supplemental audit report on the internal funds annually	CLA received a signed audit engagement letter dated March 21, 2017, for an Internal Funds audit beginning in fiscal year 2018.	Internal Funds audits will be conducted annually.		

	Internal Audit Recommendation	하게 싶어하는 어느리는 사람이 되어 가입니다. 그는 사람들은 사람들은 사람들은 사람들이 되었다.				
12	Charter School Authority Management and staff have not had sufficient training and lack adequate knowledge of the policies and procedures and proper use of internal funds. Recommend Charter School Authority management hold a training session for each school annually on the policies and procedures governing internal funds and staff should acknowledge they received this training	Inspected Training on Internal Funds outline held on November 8, 2017. Training included roles and responsibilities, Redbook requirements, disbursements that should be reported as operating expenditures, cash handling, and other relevant topics. A sign-in sheet was included as acknowledgement of training received.	Training was recorded on November 8, 2017, for administrators and CABS and additional trainings were provided for staff (see above for training dates).			
13	Internal Funds Standard Operating Guide contained outdated information. Staff had implemented new procedures that had not been included in the Standard Operating Guide. Testing results showed that school staff and Charter School Authority management loosely followed the documented current policy and procedures.	Per discussion with Britt Martin on November 20, 2017, the Standard Operating Guide has been updated with the exception of adding a section regarding the responsibilities of the Business Manager. Presentation to and approval of the Charter School Governing Board is expected at the December 12, 2017 meeting.	The Standard Operating Guide for School Internal Funds update was completed in November. Presentation and approval of the Governing Board is expected on December 12, 2017.			
	Since the Charter School Governing Board originally approved the Standard Operating Guide, the Board should also approve all changes to these policies and procedures. Charter School Authority management should review current policy and procedures and make appropriate revisions. Also, Charter School Authority management needs to communicate these changes to staff and enforce them in all of the schools to ensure uniform practices on the internal funds.					
14	Schools did not periodically submit required financial reports to the Charter School Governing Board. Charter School Authority management should provide	Britt Martin provided the Cape Coral Charter School Authority Superintendent financial statements as of May 31, 2017, to the Charter School Governing Board, which included the Internal Funds balance sheet, and statements	Presentation of financial statements to the Board will occur at the February meeting for quarter-end 12/31/17.			
	quarterly financial reports of internal funds to the Charter School Governing Board.	of Internal Fund account balances by school. The intent is to provide financial statements to the Charter School Governing Board on a quarterly basis beginning with the 12/31/17 quarter-end.				

	Internal Audit Recommendation	CLA Result of Follow-Up Procedures	Management's Response		
15	Internal funds were used to purchase some electronic devices. Subsequently these devices were not tracked or tagged with the asset tracking system. Charter School Authority management should inventory their devices and have their staff sign an agreement to return devices upon their leave. Guidance and process of property control should be included in the policies and procedures.	Per the updated Standard Operating Guide to be approved at the December 12, 2017 Charter School Governing Board meeting, "An inventory of all capital equipment will be conducted annually. The documentation shall provide a list of inventory that is obsolete, damaged or otherwise removed from the inventory. New capital items will be added to the inventory at time of acquisition. Non-capital equipment purchases (i.e. tablets, etc.) shall be tracked on the IT inventory list. A copy of the list will be provided to the Charter School Accountant quarterly." Per inquiry of Britt Martin, the updated policy has not yet been enforced among the schools, but training is forthcoming. There was no evidence provided that electronic devices and other equipment were being tagged as inventory items on a consistent basis.	The Senior Accountant will keep an inventory of all capital equipment. IT departments will maintain an inventory list at each school site and submit quarterly. According to the Strategic Plan 2018 – 2020, an asset management system will be implemented in 2018 to track, tag, and inventory all capital equipment and maintain maintenance schedules. Training is forthcoming for charter school staff during the first quarter of next year.		
16	Credit Card Logs are not retained. This is a violation of Florida record retention laws. Schools should maintain these records in compliance to State of Florida Record Retention law.	 CME – Noted Credit Card Control Log placed in use 11/7/16. OES - Noted Credit Card Control Log placed in use during 2016/2017 school year. OMS – Noted Credit Card Control Log placed in use 2/14/17. OHS – Noted Credit Card Control Log placed in use 8/9/17. 	All schools are currently maintaining credit card logs

17	The accounting for internal funds is done in Excel by school and fund codes. This workbook is not reconciled to the general ledger account balances in JD Edwards and balances are not maintained current. The workbook is updated weekly not daily. Lastly, prior versions of the file are not retained.	Per Britt Martin, the internal funds are accounted for using the City's JD Edwards accounting software. Additionally, CLA noted general ledger detail requested for receipts and disbursements testing was exported from JD Edwards.	Fund balance sheets are accounted for in JD Edwards and weekly updates are provided.
-	Charter School Authority management should evaluate accounting software options for the purpose of maintaining accurate, detailed and auditable accounting records for internal fund accounts. They may wish to consider the software used by the Lee County School District or potentially develop a method for using JD Edwards for this purpose. Whatever software is identified it must be accessible to school staff to provide timely balance information for each internal fund account.		
18	Job descriptions for secretaries do not include their responsibilities of cash handling. Cash handlers should have cash handling training provided by the City of Cape Coral's Financial Services Department and receive a certificate. Charter School Authority management should revise the secretary job description to include the responsibility of cash handling and require secretaries to attend cash handling training. Charter School Authority management should also consider incorporating this training into its policies and procedures.	Per the updated Standard Operating Guide to be approved at the December 12, 2017 Charter School Governing Board meeting, generally the Principal's secretary will be assigned to act as the School's cash custodian. "The Cash Custodian is responsible for the daily collection of money, safe guarding of cash, depositing of money into the bank, and forwarding all supporting documentation to the Charter School Bookkeeper." Additionally, cash handling training was provided on July 26, 2017, and all four school secretaries were included on the sign-in sheet. The November 14, 2017 revised Secretary job description also includes cash handling responsibilities.	Governing Board approved on November 10 th 2017 the addition of new language in the job description for secretaries that included a specific description of cash handling responsibilities.

1	Charter School Authority has not specified how undesignated donations should be allocated. Therefore, this determination has been left to school staff. The practice has been to deposit all undesignated collections into "Staff Funds." The Charter School Governing Board and Charter School Authority management should review and revise policies and procedures on the allocation of non-designated donations. Charter School Authority management should also allocate funds strategically and with an approved monies for the benefit of the schools.	Per the updated Standard Operating Guide to be approved at the December 12, 2017 Charter School Governing Board meeting, "All undesignated donations will be considered as follows: 25% to Principal's Discretionary Fund account and 75% to the Technology Fund account."	As a matter of clarification, 25% will be designated to the Authority's general fund to be used according to the principal's discretion, and 75% will be designated to the Authority's general fund to be used for technology-related purposes.
2	Two hundred payments were tested and we found one paid check request that exceeded the temporary approver's designated dollar amount. The payment processor and designated approver should be aware of the authorized dollar amounts. Recommend attaching the limit authorization form with the payments as documentation. Charter School Authority management should have a written policy documenting the process.	CLA selected a sample of 15 disbursements from each school, for a total of 60, for the period 3/1/17 through 6/30/17. There were no instances noted where a temporary approver was noted in place of the Superintendent. The updated Standard Operating Guide to be approved at the December 12, 2017 Charter School Governing Board meeting mentions certain instances where the Superintendent or "designee" approval is required; however, the process of assigning a designee and his or her authority in the absence of the Superintendent is not clearly described within the updated Standard Operating Guide.	The Superintendent is responsible for assigning a principal as a designee in his/her absence as a temporary approver. The Delegation of Authority Form must be completed in advanced and submitted to the Business Manager. This form has been revised to state the maximum expenditure is not to exceed the \$50,000. Copies will be made to the administrative staff and their secretaries for record keeping purposes.

3	The internal fund checking account cash balance exceeds the FDIC insurance limit of \$250,000. CHAPTER 26: - CAPE CORAL CHARTER SCHOOL AUTHORITY

CHAPTER 26: CAPE CORAL CHARTER SCHOOL AUTHORITY

Section

§ 26-1 - Purpose.

The purpose of this chapter is to effectuate and to implement the charter school contract (the "Charter") that has been entered into between the City of Cape Coral and the Lee County School District, as same may hereafter be amended.

(Ord. 41-04, 4-12-2004)

§ 26-2 - Creation of Charter School Authority and Board.

There is hereby established the Cape Coral Charter School Authority (the "Authority"), which is created for the purpose of operating and managing, on behalf of the City of Cape Coral, all charter schools for which a charter is held by the city (the "Cape Coral Charter Schools"). The powers of the Authority shall be exercised through a governing board, which shall be known as the Cape Coral Charter School Authority Board (the "Board") and which shall provide governance of the charter schools.

(Ord. 41-04, 4-12-2004)

§ 26-3 - Geographic boundaries.

The geographic boundary of the Authority shall be coterminous with the municipal boundaries of the City of Cape Coral as they presently exist and as they may be changed from time to time. The delineation of the aforementioned boundaries shall not be construed as prohibiting the enrollment of students who, though they may reside outside the municipal boundaries of the city, are otherwise members of one of the groups of students permitted to enroll in the charter school specified in § 26-4 below.

(Ord. 41-04, 4-12-2004)

§ 26-4 - Student community.

- (a) The student community to be served by the Cape Coral charter school(s) shall consist of all students residing within the municipal boundaries of the City of Cape Coral; students who are siblings of a student enrolled in a charter school; and students who are children of an employee of the Authority or of a Board member.
- (b) Each student shall complete an application to be considered for enrollment. In order to be considered to be eligible for enrollment, a student's application shall be submitted during the time period established by the Charter for accepting applications. The Charter School shall enroll all eligible students who submit a timely application, unless the number of applications exceeds the capacity of a program, class, grade level or building. If the number of applications exceeds the capacity of a program, class, grade level or building, then all the applicants who timely submitted an application shall have an equal chance of being admitted through a random selection process. Preference shall be given to siblings of a student already enrolled in the Cape Coral charter school(s) and to the children of a member of the Board or of an employee of the Authority.

(Ord. 41-04, 4-12-2004)

§ 26-5 - Composition of Authority Board.

The Board shall be composed of no less than seven and no more than 11 members as follows:

(a) One City Council member;
(b) One member from the business community;
(c) One member from the education community;
(d) Four members from the community at large;
(e) One parent of an elementary school student (of a city operated charter school);
(f) One parent of a middle school student (of a city operated charter school);
(g) One parent of a high school student (of a city operated charter school).

(Ord. 41-04, 4-12-2004; Ord. 71-05, 5-9-2005; Ord. 109-06, 8-14-2006; Ord. 2-08, 1-28-2008)

§ 26-6 - Board appointments and participation.

The members of the Board shall be appointed and participate as follows.

- (a) The City Council member, the member from the business community, the member from the education community and the four members from the community at large shall be appointed by the City Council. All of the aforesaid members shall be residents of the City of Cape Coral both at the time of their appointment and at all times during their membership on the Board. Any member of the City Council, including the Mayor, shall be eligible for appointment by the City Council to the "City Council member" position on the Board, which shall be considered to be an "ex-officio" position. The City Council member who serves as a member of the Board, the member from the business community, the member from the education community and the four members from the community at large shall each have the right to participate and to vote on all decisions of the Board.
- (b) The parent member(s) from each charter school level, i.e. elementary, middle and high school, shall be chosen by and from the parent organization(s) from each school level (elementary, middle and high school) and shall be the parent, legal guardian or legal custodian of a student enrolled in the Cape Coral Charter Schools at the school level (elementary, middle or high school) the parent member represents. The parent member(s) of the Board shall be residents of the City of Cape Coral, both at the time of their appointment and at all times during their membership on the Board. Prior to the enrollment of students at any charter school level, the parent position(s) on the Board for the charter school level shall remain vacant. The positions on the Board for parents from each charter school level shall be considered to be "ex-officio" positions. The parent member(s) of the Board shall have the right to participate in all discussions of the Board, but not to vote on any matter. If, for any reason, the parent organization is unable or unwilling to select a parent member of the Board, absence of the parent member from the Board shall not affect the right of the Board to meet or to take any action it may otherwise lawfully undertake.
- (c) No member of the Board will be an employee of the Authority or receive any financial benefit from the operation of the charter school(s).

(Ord. 71-05, 5-9-2005)

(d) No more than one parent, legal guardian or legal custodian of any student shall serve on the Board at any given time, regardless of whether the parent, legal guardian or legal custodian is serving as a parent member, as a member from the education community, business community or community at large, or as a member from any other segment of the community.

(Ord. 41-04, 4-12-2004; Ord. 109-2006, 8-14-2006; Ord. 2-08, 1-28-2008)

§ 26-7 - Ex-officio Board members.

Service on the Authority Board by any ex-officio member shall be an additional duty to any and all other duties and responsibilities already exercised by the ex-officio officer, official or member. If, after the appointment of any ex-officio member to the Authority Board, a court of competent jurisdiction should determine that the appointment is an additional office, such as might be construed to violate the Cape Coral City Charter or the Florida Constitutional provision against dual office holding, the appointment shall be deemed void ab initio and automatically rescinded as of the date of the original appointment so as to avoid any forfeiture of other office for the ex-officio appointee and the city shall promptly take all steps reasonably necessary to amend the charter between the city and the Lee County School District and all ordinances, resolutions or other regulations necessary to address the rescission. Rescission of a Board member's appointment shall not call into question or invalidate any action or decision voted on by any member subject to the above provision.

(Ord. 41-04, 4-12-2004; Ord. 2-08, 1-28-2008)

§ 26-8 - Initial Authority Board.

- (a) The previous appointments by the City Council of the City Council member, the member from the business community, the member from the education community and the members from the community at large to the initial Board as well as the City Manager are hereby ratified and confirmed upon the adoption of this chapter as the initial Board, which shall hold an organizational meeting as soon as practicable after the adoption of this section. At the organizational meeting, the members shall appoint a member to serve as chair and a member to serve as vice-chair of the Board until the next organizational meeting of the Board pursuant to § 26-10 below. The City Clerk shall provide a recording secretary to serve as secretary to the Board and keep minutes and records of all Board proceedings until a Superintendent is appointed.
- (b) For purposes of this section, the initial terms of the members of the initial Board appointed by the City Council shall be deemed to have begun on April 1, 2004. The term of the Council member appointed by the City Council to the initial Board shall expire on March 31, 2005. With respect to the terms of the five remaining initial Board members (representing the business community, the educational community, and the community at large), and in order to provide for staggering of the terms of the members hereafter, two members shall serve a term of three years; two members shall serve a term of two years; and one member shall serve a term of one year. The initial Board shall, at its initial organization meeting, utilize a random selection process to determine which of the members shall serve a term of one year, two years or three years as provided herein. The one-year term identified in this section shall expire on March 31, 2005; the two terms of two years shall expire on March 31, 2006; and the two terms of three years shall expire on March 31, 2007. Thereafter, the terms of the Board members shall be as provided in § 26-9 below. Members of the initial Board are eligible for reappointment in accordance with the provisions of this chapter.

(Ord. 109-06, 8-13-2006)

- (c) Upon the expiration of the term of an initial Board member as provided herein, the City Council shall appoint a replacement member from the same membership class as the predecessor member to fill the vacant Board position in accordance with § 26-9(d) so that upon the expiration of the term of a member from the educational community, the business community, or the community at large, the City Council will appoint a member from the educational community, business community or community at large, respectively.
- (d) In the event a position on the initial Board becomes vacant due to the resignation, removal, death or forfeiture of a member, the City Council shall appoint a person to fill the vacancy for the remainder of the unexpired term in accordance with § 26-9(d).

(Ord. 41-04, 4-12-2004; Ord. 2-08, 1-28-2008; Ord. 2-15, 1-26-2015)
