Student Transportation: Accelerated Bus Replacement

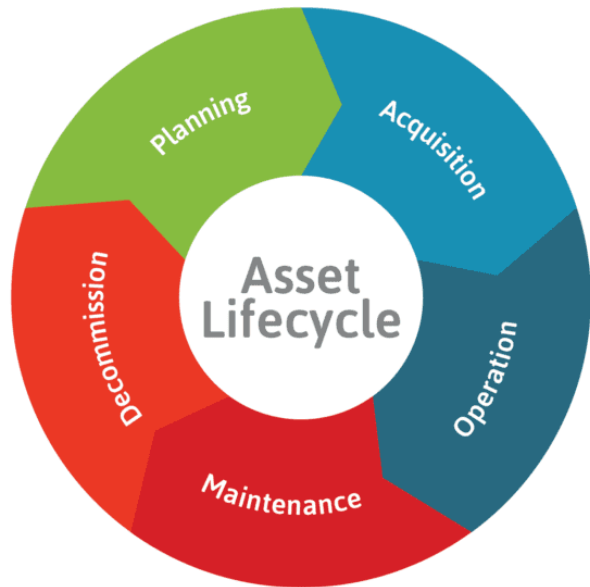

Why replace with new buses?

Each year, the Charter Schools replace older buses that are becoming costly to maintain due to frequent repairs and/or the need for replacement parts. The existing bus fleet has aged considerably. The majority of the school bus fleet was purchased in 2011, which means the bulk of buses need to be replaced at one time.

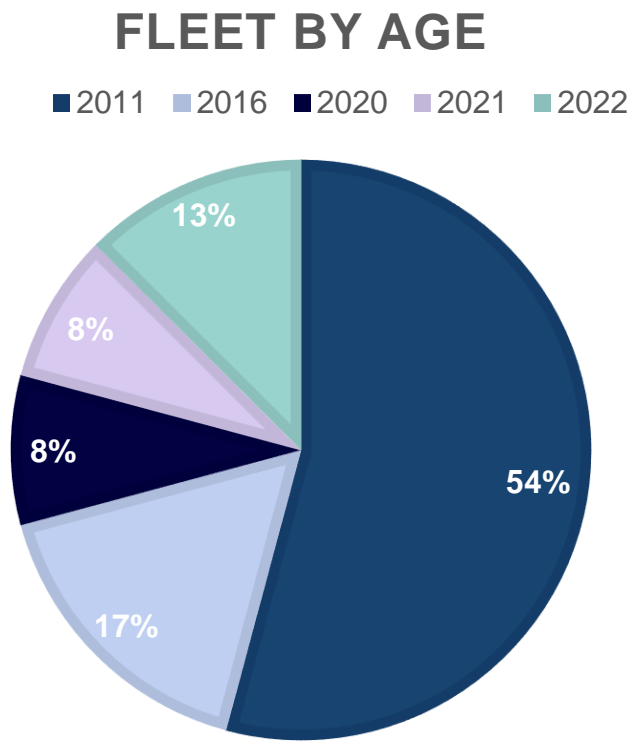

State law requires school buses to undergo rigorous and detailed safety inspections every 30 school days. Fleet performs a state inspection to determine whether the buses are running efficiently and safely, and also monitor engine condition.
